ABOUT REVERS.IO

For the past 10 years, Revers.io has been the leader in managing the most **complex reverse logistics processes**.

Its SaaS platform enables instant processing of return requests and provides customers with complete **automation and traceability** of their supply chain. Revers.io is connected to all logistics stakeholders, including carriers, retailers, manufacturers, logisticians, and repairers, making return management **simple, automated, and fast** for both consumers and its clients' employees.
