

## Prototype Power Platform: 4-Hr Assessment

Unlock the potential of a codeless platform.

Rhino Systems' Power Platform sample mobile agent application

In a 4 hours workshop, we will introduce you and demonstrate the capabilities of the Power Platform.

Rhino Systems will identify a use case that would be meaningful to your company and together we will build a prototype.

After this hands-on workshop, you will understand the platform's potential and will uncover ideas into how to design and build applications.

A team of experts will walk you thru pre-build applications to showcase and demonstrate the power platform extended Potential.

We will discuss the product licensing model and we will share best practices for governance.

## 4 Hours Asesstment offer

Our Offering includes:

- Introduction and demonstration of the Power Platform.
- Understanding Microsoft Common Data Model.
- Identify and prototype a solution for your business pain points.
- Understanding licensing

The workshop will be led by a team of a Digital Transformation consultant and a technical Architect.
