Microsoft Fabric: 30 Day Fast-track

Key Benefits

Clarity of direction
Clear, tailored roadmap to guide your implementation beyond our engagement.

Expert support
First Fabric environment set up by experienced professionals.

30 day ROI
Deliver a value-add platform to the business in 30 days.

De-risk your business
Future-proofing your business with the newest, advanced Microsoft technology.

Grow your talent
Modernise the skills of your biggest asset, your team.

Phase 0 **Discovery and Planning**

- Review your current solution, focusing on priority data sources, specific requirements, and migration paths.
- Document recommendations to address issues, migration strategies, and risks.
- Estimate the effort needed to productionize identified elements for the future roadmap where enough information is provided to do so.

Phase 1 **Foundation Setup**

- Create Microsoft Fabric environments and workspaces.
- Integrate with Azure DevOps.
- Conduct additional discovery on data sources.

Phase 2 **Use Case Implementation**

- Perform analysis and design.
- Implement data ingestion framework.
- Conduct data modelling.
- Implementation showcase and handover.
