

Rimo3 Cloud Endpoints Kickstarter

Why Rimo3?

- Available on Azure Marketplace
- Microsoft Management Customer Connection Partner
- Approved ECIF partner
- Increase Windows 11 and Intune usage
- Accelerate deal lifecycle for Intune Suite and Windows 365
- To find out more, head over to <https://www.rimo3.com>

Benefits to customer with Rimo3:

An immersive experience with Rimo3 to enhance your knowledge and confidence on how to

- Get copilot ready
- Onboard and Discover Windows applications from SCCM
- Create an automated pipeline for connecting to SCCM and migrating apps to Intune
- Migrate away from on-prem SCCM, Cloud Attach and/or Co-Management
- Validating application readiness for Windows 11 on Physical and/or Cloud PC
- Reporting application performance from current environment against target environment
- Accelerate Intune rollout for Windows endpoints
- Adopt Windows Autopatch with confidence that is powered by automated application testing

Cloud Endpoints Kickstarter Program with Rimo3

Join Rimo3's technical experts and experience the benefits of

- Automated SCCM to Intune application migration
- Automated Windows 11 application testing with support for custom image(s)
- Integrating automated application testing and management into an application delivery pipeline
- Using data to reduce application failures and improve end user experience
- Improve security posture by reducing time to deploy security updates

Engagement Milestones

Scoping:

- Deliverables overview
- Roles and responsibilities
- Agree plan and applications

Application Onboarding:

- Automated Discovery
- Automated Baseline
- Baseline application performance

Migrate Apps

- Select applications to be migrated
- Choice of application formats:
AppVolumes | MSIX | .intunewin

Rimo3 Deployment:

- Onboarding Workshop
- Rimo3 platform deployment
- Connection to your SCCM
- Onboard your custom image
- Onboard your applications
- Intune connection

Application Testing

- Onboard target image
- Windows 11 readiness with reporting
- Identify application failures

Closing Report

- Closing Workshop
- Knowledge Transfer
- Final report and closure
- Build migration plan
- Define next steps

Outcomes & Deliverables

Immersive

Learning and development with Rimo3 experts on using the platform

Collaborative

Work side by side with Rimo3 cloud SME's to best prepare for your cloud journey

Hands On

Create your own automated application lifecycle management pipeline

Actionable

A clear pathway to Cloud Endpoints adoption based on actionable application insights

Jani Anttila – Head of End User Services

“97% faster migration from SCCM to Intune with Rimo3 – 8 days vs 4 months. We also avoided 331,000 Euro in labour costs to manually test and migrate 414 SCCM applications to Intune”

Rimo3 Cloud Endpoint Kickstarter Packages

Freemium

- 5 Applications
- 10-day license
- Onboarding Workshop
- Custom image support
- SCCM import
- Windows 11 test
- Intune export
- Modern format conversion (MSIX/AppVols)
- Closing Workshop

£0

Premium

- 20 applications
- 30-day license
- All Freemium features
- AVD single and multisession testing
- Rimo3 SME support
- Additional workshops with Rimo3
