## Managing Compliance with Microsoft Purview Compliance Manager

### Meet Complex Compliance Obligations

The compliance manager is a cross-Microsoft solution that helps meet complex compliance obligations, including ISO 27001, ISO 27018, NIST 800-53, HIPAA and Data Privacy.

### Simplify your Compliance Journey

Microsoft Purview Compliance Manager helps organizations simplify compliance by offering pre-built assessments for common compliance standards, custom assessments to meet your organization's specific compliance needs, suggested improvements to reach compliance, the risk-based score for your organization to understand your current compliance posture.

### Understand your Compliance Progress

Compliance Manager awards you points for completing improvement actions taken to comply with a regulation, standard, or policy, and combines those points into an overall compliance score. Your compliance score can help prioritize which action to focus on to improve your overall compliance posture.

### Comply with Common Industry Regulations

Compliance Manager helps most common compliance standards and industries including HIPAA for health care organizations, PCI-DSS for organizations that handle or process credit card information, Sarbanes-Oxley or Gramm-Leach-Bliley for organizations that handle financial information and CCPA for organizations processing information on California residents
