

Revenue. On autopilot. From pipeline to renewal.

Rox is the #1 AI Revenue Agent for the Enterprise. Purpose-built to power the full lead-to-close process. One intelligent layer replaces the fragmented GTM stack, automating pipeline generation, deal execution, and customer expansion across every stage of the revenue cycle.

AUTONOMOUS PIPELINE GENERATION

2-3x more qualified pipeline

Rox detects per-account buying signals, ranks actions, and executes personalized outbound at scale, without rep intervention.

- Signal detection & account prioritization
- Enrichment & prospecting
- Autonomous outbound with automated replies

DEAL EXECUTION & RISK MANAGEMENT

+28% revenue per rep

One agent per account unifies context across tools, reps, and leadership. Surface hidden stakeholders and replicate the habits of your best sellers.

- Auto-synced MEDDPIC hygiene
- Dynamic org charts & multi-threading
- Proactive next-best actions
- Deal risk analysis

RETENTION & EXPANSION AUTOPILOT

\$2B+ renewals managed with Rox

Always-on monitoring surfaces churn risk and expansion signals before it's too late, with automated renewal readiness per account.

- Churn risk identification
- Expansion signal alerts
- Automated renewal briefs

Pre-built agents working every account.
Warehouse-native architecture.

Knowledge graph governance.
Enterprise-grade security.
