Analytics Innovation with AL & ML: Two-Week Assessment
About RSM:

RSM, with over 51,000 people in 123 countries, delivers the power of being understood to our clients, colleagues and communities through world-class audit, tax and consulting services tailored to meet the unique needs of middle market businesses.

What we offer

The Analytics Innovation with AI & ML assessment is designed to help companies unlock the full potential of AI and ML. RSM's team of experienced consultants will assess your organization's current AI and ML capabilities and provide recommendations for implementing Microsoft Azure AI and ML products stack, including Azure ML, Cognitive Search, Cognitive Services, and Bot Service.

RSM's approach is based on a deep understanding of the latest AI and ML technologies and best practices, industry expertise, and proven track record of successful AI and ML implementations for our clients.

The assessment will provide a comprehensive analysis of your organization's AI and ML capabilities, from identifying the most valuable use cases for your organization to selecting the right Azure AI and ML products to meet your needs and harness the power of AI.

Dive into your Artificial Intelligence journey with RSM

Why Microsoft Azure?

— Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools

— Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

— Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

— Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
