

AI First

# AI Platform Accelerator Benefits

1

## Foundation

Established groundwork for AI. Easily develop additional solutions.

2

## Ready in a month

Operational and available to use in a month with the "initiate, implement & evaluate" approach.

3

## In-Tenant Delivery

The solution will be deployed to your tenant. You will be the owner of the solution.

4

## Security first

Implements security by design. Can adopt a wide range of security standards (GDPR, ISO, DORA).

5

## Reliable

Improve relevancy with the testing framework. Increase reliability, reduce hallucinations and improve on feedback.

6

## Cost Control

Gain a good sense of costs through monitoring and cost dashboards.
