

Hybrid analytics to improve how and where people work

WorxWell is a dynamic, data-driven insights platform, powered by IoT and the intelligent edge, that considers every aspect of hybrid workplace experience.

An end-to-end solution for the new hybrid work environment, WorxWell provides HR and CRE leaders with insights to inform and continuously track performance of their hybrid work model as well as empowers employees with personalized productivity nudges and tools to improve work habits and behavior.

2021 Microsoft Partner of the Year Finalist in IoT

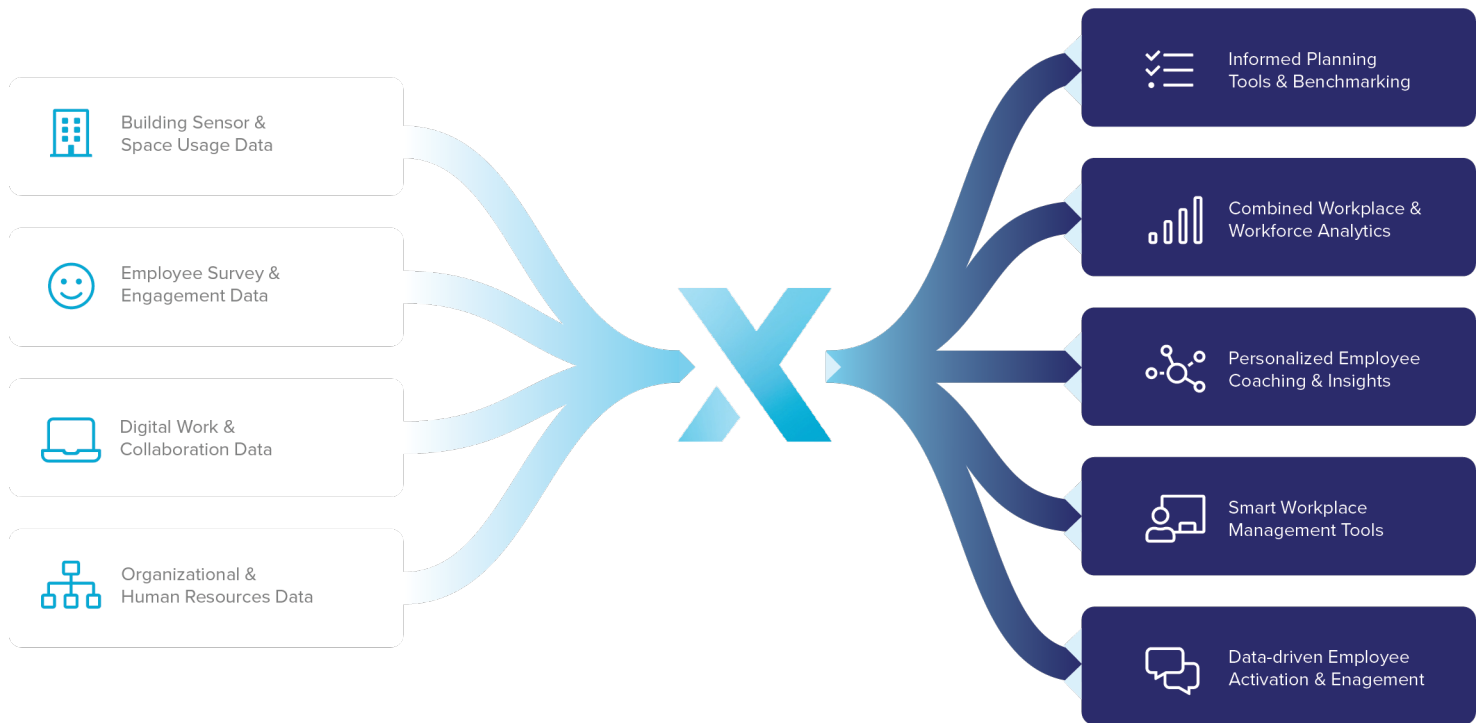

2021 Webby Award Honoree

2020 Realcomm Digie Award Winner

WorxWell™

The WorxWell Insights Platform combines data about your space such as occupancy sensors, access control, air quality sensors, and booking systems with data about your people such as calendars, emails, and chats, to give you a comprehensive view of work culture and utilization in a hybrid environment.
