

# safe365<sup>®</sup> Contractor Connect

Supply chain visibility,  
process alignment  
and assurance like  
never before!

Contractor Connect is a world-class digital supply chain management system, driving safety leadership, improving legal compliance, and generating safer behaviours across your supply chain.

safe365<sup>®</sup>  
**Contractor  
 Connect**

## Why you'll love it

### Streamline processes

Manage all contractors in one easy-to-use portal. Review and approve documentation, and create a digital handshake between you and your contractor.

### Real-time insights

Access the latest contractor health, safety and compliance documentation and certifications at any time. Instantly see what's missing, expired, or out-of-date.

### Safety & risk leadership

Demonstrate due diligence for supply chain health and safety management and gather business intelligence to inform decision making.

## Why contractors love it

It's FREE for your contractors to sign-up.

One contractor profile can connect with multiple clients.

Upload and share documentation and certifications quickly and easily.
