The Problem

Companies lose millions of dollars every year as a result of tasks that can be automated:

- 55%** of tasks are manual, tedious & repetitive.
- 20%** of employee turnover relates to mundane tasks.

Implementing Automation presents significant challenges for the company's IT

- High CAPEX, and uncertainty of ROI
- Scarce and costly technical expertise & resources
- Legacy systems integration and ongoing maintenance challenges

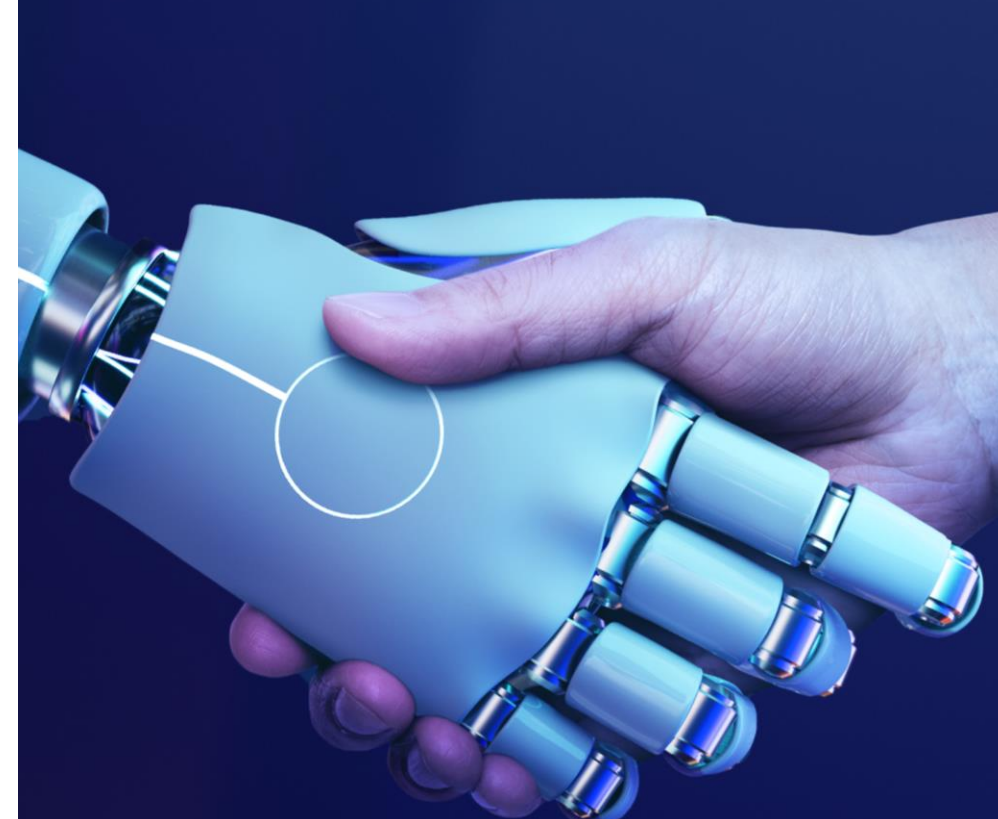

Solution: Managed Process Automation

We automate your high-volume mundane processes, actively monitoring and fine-tuning performance

Your Global Solution Partner to automate:

-  Order Management & Logistics
-  AP & AR & Accounting

**Pay per unit of work
Implemented in 6 - 8 weeks
ROI from day 1**

Industries:

-  Distribution
-  Manufacturing
-  Financial Services

Our Proof Of Concept

What you gain

- Validate the technology
- Validate Zagitas
- Validate the **benefits**

Expected benefits

- **Eliminate errors**, reprocessing and penalties.
- Processing **time improved** up to 10X
- **Decrease cost** in 74% on average
- Increase **customer satisfaction**
- Increase **employee Satisfaction**
- POC price: \$1.
