

HomebuilderONE

With one of the most comprehensive ERP feature sets in the homebuilding marketplace, HomebuilderONE and sa.global are helping homebuilders transform how they do business.

Key Features

- Brings greater visibility and forecasting of supply chain logistics, sourcing of materials, and scheduling of trades on site via Microsoft Dynamics 365 Finance and Operations
- Leverages the flexibility of cloud hosting and mobile access for enterprise-wide data sharing and insights with lower costs and reduced downtime
- Serves as a secure channel of information and communication for all project teams

Key Benefits

- Improved efficiency by eliminating the need for multiple applications
- Reduced costs through increased visibility in ordering, procurement, budgeting, and billing
- Consistent repeatability through templated processes and standardized forms
