sa.go!

— from sa.global —

Business Central

Key Features

Connected business management for small to medium-sized organizations

Ensure business continuity with a cloud solution that connects sales, service, finance, and operations to help teams adapt faster and deliver results. Make your business vision a reality with the adaptability, performance and insights needed to outpace the competition.

Adapt faster
Be prepared for disruption with the insights needed to pivot quickly, shift business models, and cultivate strategic plans.

Work smarter
Empower your people to confidently take actions and get more done with AI-infused processes, automated workflows, and interoperability with Microsoft 365 + Teams.

Perform better
Enable better business performance with continuous process improvements and responsiveness across your entire business— not just financials.
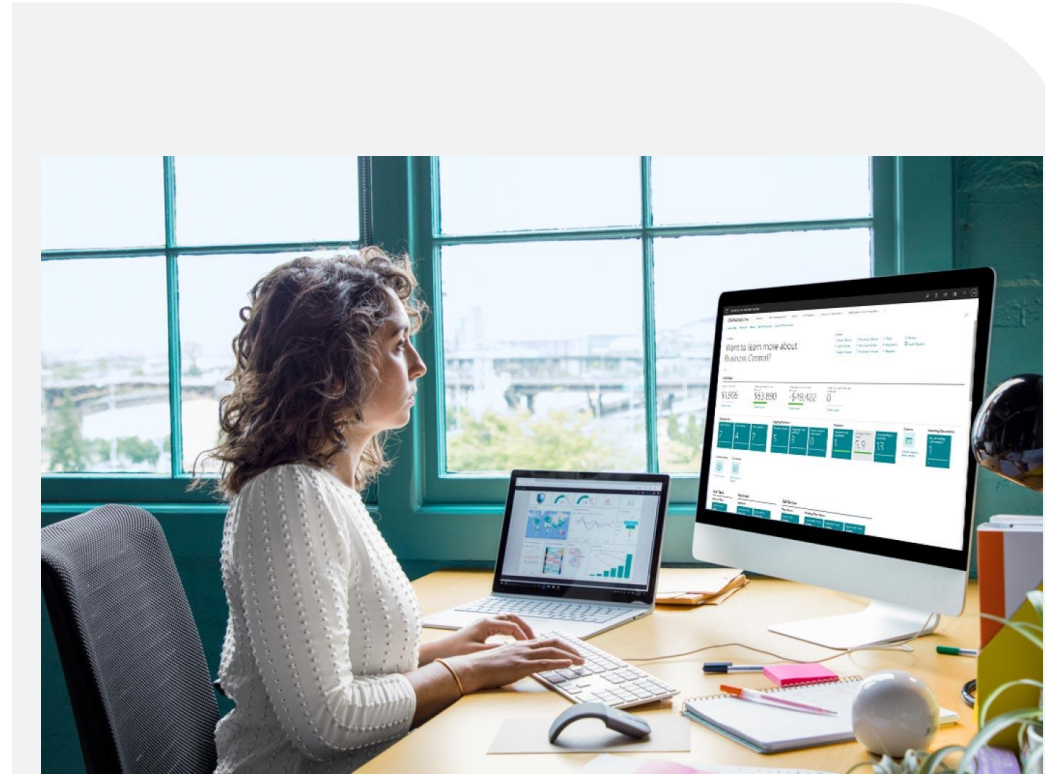

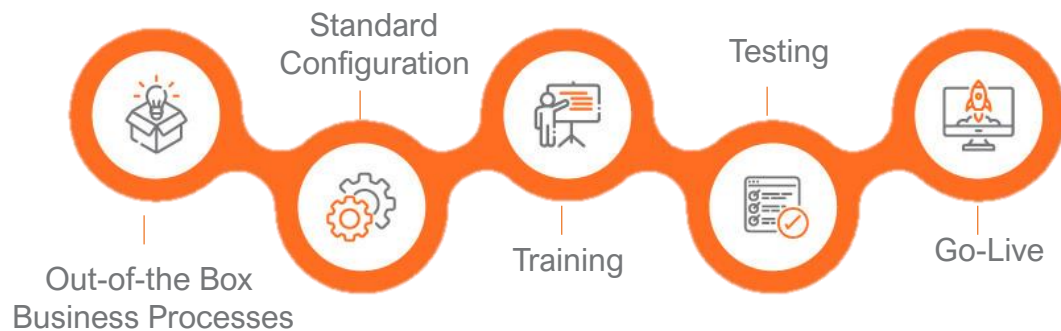

sa.go! for Business Central

Overview

sa.go! for Business Central is a rapid implementation that incorporates industry best practices, configurations, and knowledge gained from hundreds of implementations.

In weeks, this accelerated package enables you to get to work where other systems require months of production.

In addition to the rapid implementation, you will find support throughout the life cycle of your software through our Managed Services at a predictable subscription price model.

Out-of-the Box Business Processes • Standard Configuration • Training • Testing • Go-Live
