salt essentialit — MICROSOFT COPILOT

1 — What is Microsoft Copilot?

Microsoft Copilot is an artificial intelligence (AI) tool that helps you write code, documents, emails, and more with natural language queries.

2 — How can Copilot empower you?

Copilot can save you time, improve your productivity, and enhance your creativity by generating high-quality content for various purposes and formats.

6 — Are there any costs attached?

Salt does not charge for Awareness Sessions. If you need more in depth assistance or training, Salt can provide pricing for such sessions.

5 — What if you need more?

Simply book another session with our Empowerment team!

3 — What does the Awareness Session cover?

The Awareness Session introduced the features and benefits of Copilot, showed how to use it in different applications. It also covers ethical use of AI and using it in a secure way to not expose company data outside its intended use.

4 — Why should you attend the session?

The session gives you hands-on experience with Copilot, an opportunity to answer your questions and help you get started on your own projects using these tools.
