Migrate to Microsoft Fabric - 1 Hour Free Consultation

Unlock your modern analytics journey in just one hour!

Santor is offering a complimentary 1-hour consultation for organizations considering a migration to Microsoft Fabric and Power BI from Qlik, Tableau, BusinessObjects, Azure Synapse and other legacy systems. Get expert guidance and discover how our Migrate to Fabric service can accelerate your Data & AI transformation journey.

In this no-obligation session, Santor's specialists will help you understand how Microsoft Fabric can align with your business goals. You'll gain clarity on the migration process to help you take the next step with confidence.

Who it is for? Business Leaders who are:

- Evaluating Microsoft Fabric as their enterprise data platform
- Looking to modernize legacy data and analytics platform
- Responsible for driving data-driven business outcomes
- Planning organizational change management for Analytics & AI adoption

What to Expect: During this complimentary 1-hour session, Santor's experts will:

1. Discovery

- Understand your current analytics stack (e.g., Power BI, Tableau, SSRS, etc.)
- Identify data sources, storage systems, and typical pain points
- Discuss current reporting workflows and AI/data goals

2. Opportunity Mapping

- Highlight Fabric components relevant to your ecosystem (e.g., Lakehouse, Pipelines, OneLake, Power BI, Notebooks)
- Identify migration feasibility: quick wins vs. complex lifts
- Discuss licensing optimization, governance, and cost benefits

3. Tailored Recommendations

- Provide a high-level roadmap and migration strategy
- Suggest next steps: POC, full migration, or phased adoption
- Answer any questions about Microsoft Fabric capabilities

4. Wrap-up & Follow-up

- Deliver a summary and send a tailored one-pager post-session
- Option to schedule a deeper assessment or POC

Outcomes: By the end of this session, you will have:

- A clear understanding of how your current BI and data tools map to Microsoft Fabric
- Identification of quick wins and potential roadblocks in your migration journey
- A tailored migration path from tools like Qlik, Tableau, SSRS, or other legacy systems to Fabric
- Initial recommendations on licensing, governance, and performance optimization
- Confidence in your next steps — whether it's an Assessment, POC, phased migration, or full rollout.

Why Santor?

- Experience with 150+ data analytics projects and 50+ Microsoft-certified professionals
- Proprietary accelerators ensuring faster, more reliable delivery
- Deep expertise in Microsoft Fabric, Co-pilot, Data Factory, OneLake, Power BI and Azure Synapse

Take advantage of this opportunity to explore how Santor's proven expertise can support your transition to a modern data platform with advanced analytics capabilities.
