Tableau to Fabric & Power BI Migration- PoC

Demonstrate proof of migration from Tableau to Fabric & Power BI, including validation of functionalities, feature compatibility, and UI/UX, using our proprietary Migrate to Fabric Solution.

Migrate one of your Tableau dashboards or workbooks to Power BI to:

- Prove that the application can be successfully migrated and accepted by end users
- Validate that the same functionality is available in Power BI
- Identify compatibility and feature gaps between Tableau and Power BI
- Learn how to address any incompatible features
- Understand the migration process and the skills required to complete it
- Utilize Power BI tools to build a semantic model
- Showcase the enhanced UI/UX capabilities of Power BI
- Use the migrated application for user acceptance testing

In addition to our expertise in Power BI and Fabric, we are a leading migration specialist with a proven track record of delivering successful outcomes efficiently and consistently. Our methodology combines structured processes with data-driven insights, enabled by our proprietary Migrate to Fabric solution—an advanced alternative to traditional manual methods.

Agenda:

- Install and run Metadata Analyzer tool within the customer's Tableau environment
- Review the analyzer results with key stakeholders
- Evaluate and select the identified Tableau dashboard for migration*
- Perform a gap analysis and prepare a tailored migration roadmap
- Leverage metadata collected using the Power BI Metadata Analyzer tool
- Design and develop the equivalent Power BI report
- Review and validate the Power BI report with stakeholders
- Demonstrate proof of migration, validating functionality, compatibility, and UI/UX

*This offer is based on a Tableau workbook of low complexity and up to 3 worksheets.

The actual pricing and duration for this engagement will be customized based on scope and requirements determined during initial consultation.

Deliverables:

- Power BI Report
- Demonstration Workshop

AI Enablement Roadmap

Thought Leaders in the Microsoft Ecosystem

We actively engage with the Data & AI community to stay at the forefront of innovation, continuously align with industry trends, and share learnings with our clients in real-time.

Thought Leadership & Community Sharing

- Host monthly technical webinars
- Publish blogs highlighting industry insights
- Deliver weekly newsletters to share real-world experiences, best practices, and evolving perspectives

Training & User Enablement

- Provide customized training courses on data engineering, data science and business intelligence
- Conduct Fabric Analyst In A Day Workshops in partnership with Microsoft

Active Participation at Industry Events

- Regularly attend key conferences such as Microsoft FabCon and NRF to stay ahead of innovation in Data & AI

Ongoing Collaboration

- Engage with Microsoft thought leaders, product teams, and partners to inform our solutions with the latest trends and roadmap insights.
