**Microsoft Fabric Advisor**

Fabric Advisor is a comprehensive offering designed to evaluate your current data and analytics environment, delivering customized recommendations for efficient Microsoft Fabric implementation.

**Activities:**

- Data Environment Assessment
    - Review of current data environment
    - Analyze data elements to ensure scalability
- Governance & Security Review
    - Licensing and user roles audit
    - Administration and security review
    - Review data security implementations
- Performance & Optimization
    - Report creation and performance improvements
- Strategic Recommendations
    - Develop recommendations to meet desired goals

**Deliverables:**

- Assessment & Planning
    - Comprehensive assessment report
    - Microsoft Fabric implementation roadmap
    - Detailed recommendations for improvement
- Governance & Security
    - Licensing recommendations
    - Role based access management plan
    - Data lineage and security recommendations
- Enablement & Support
    - Training and support plan
    - Developer productivity processes (e.g. Architecture best practices)
- Reporting & Insights
    - Self-service reporting implementation

**Customer Benefits:**

- Strategic Planning & Enablement
    - Expert analysis of the current data and analytics environment
    - Tailored recommendations for Microsoft Fabric implementation
    - Strategic guidance for building a Center of Excellence
- Operational Efficiency & Reporting
    - Improved report creation and release processes
    - Performance improvement
- Security & Governance
    - Enhanced security and authorization protocols
- Training & Ongoing Support
    - Ongoing support and training
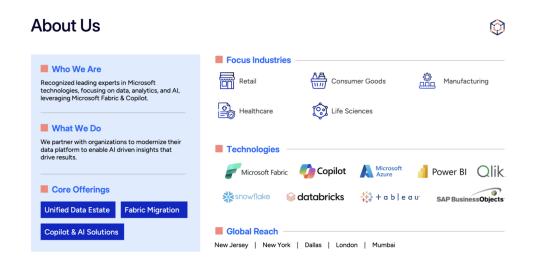

**Why Santor?**

- 150+ Data Analytics and Migration Projects
- 50+ Microsoft Certified Professionals
- Migration Accelerators and Processes

Take advantage of this opportunity to explore how Santor's proven expertise can support your transition to a modern data platform with advanced analytics capabilities.

The actual pricing and duration for this engagement will be customized based on scope and requirements determined during initial consultation.

**Pricing: Starting at $10,000**

# Thought Leaders in the Microsoft Ecosystem

We actively engage with the Data & AI community to stay at the forefront of innovation, continuously align with industry trends, and share learnings with our clients in real-time.

### Thought Leadership & Community Sharing

- Host monthly technical webinars
- Publish blogs highlighting industry insights
- Deliver weekly newsletters to share real-world experiences, best practices, and evolving perspectives

### Training & User Enablement

- Provide customized training courses on data engineering, data science and business intelligence
- Conduct Fabric Analyst In A Day Workshops in partnership with Microsoft

### Active Participation at Industry Events

- Regularly attend key conferences such as Microsoft FabCon and NRF to stay ahead of innovation in Data & AI

### Ongoing Collaboration

- Engage with Microsoft thought leaders, product teams, and partners to inform our solutions with the latest trends and roadmap insights.
