

Business Process Automation & Modernization

Use Microsoft Power Platform as a low code platform to automate business processes that are repetitive, manual and consume a lot of time. Whether you are a citizen developer or an IT pro, Microsoft Power Platform will automate your tasks, excels and paper documents easily.

Why

There are many manual, time-consuming processes in every organisation that can be transformed into automatic flows with Business Process Automation (BPA). This will save your company a lot of time and manual repetitive tasks.

What

Microsoft Power Platform is an intuitive, collaborative, and extensible low-code platform. It empowers business users to analyse and gain insights from diverse data using Power BI. We automate processes by creating low-code solutions for business challenges with Power Apps and Power Automate, and give assistance to end users or customers by handling routine inquiries at scale using conversational AI with Power Virtual Agents and Copilot Studio to create your own Chatbot.

Technologies:

- Power Automate
- Power Platform
- Power Pages
- Power Virtual agents and Copilot Studio
- Power BI
- Microsoft Dataverse
- Azure Logic Apps
- Azure Mobile Apps
- Power Apps
