

Teams Voice

Our Microsoft Teams Phone solution empowers your organization with smart communication and seamless collaboration.

Why

In today's business environment, effective communication is essential. With the phone capabilities in Microsoft Teams you get an environment that is flexible, easy to use, embedded within Microsoft 365, intelligent, secure, reliable and easy to manage.

What

Microsoft Teams Phone brings together calling, chat, and meetings in one app. Your team can seamlessly switch between voice calls, video calls, and chat within the same platform. They can use Teams Phone on their mobile devices, ensuring productivity from anywhere. Moreover, Teams Phone seamlessly integrates with Azure Virtual Desktop, allowing access to data and applications from any device.

Teams Phone offers an experience that's simple to manage and highly reliable. You get a financially backed service level agreement (SLA) of 99.99% uptime, ensuring consistent connectivity. With Teams Phone, you save time and reduce costs. No need for separate phone systems or additional software licenses, just choose your pricing model based on your business needs.

Technologies

- Microsoft 365
- Microsoft Teams

BUSINESS CHALLENGES

SMBs need cost-effective quality solutions for smooth communication with colleagues and clients.

VALUE DELIVERED

Improve teamwork and communication
Enhance productivity and efficiency
Reduce costs and complexity

HOW WE DO IT

Analysis
Implementation
User Adoption
Support

How

We assess the communication flows that need to be established. Next, we seamlessly transfer all active numbers to the new architecture, and the new environment goes live. All the while, we focus on user adoption and training.

Outcome

A Microsoft Teams Phone solution that empowers your organization with smart communication and seamless collaboration.
