What if...

- You could build a list of business networks that will encourage the growth of your business?
- You could just upskill all the required skillset to thrive in your industry?
- You have all the market knowledge and track down the changing trends?
- You have timely access to finances and do not have to rely on your own resources?
- You could stay updated with the major events happening in and around your industry?
- You never have to worry about operating on low capital or shutting down your shop?

What is Commun80

Commun80 is a society that will help you get all of the "What If" pointers happening for you.

Whether you're looking to start a business from scratch or expand your existing operation into the global market, we have something for everyone.

From MSME exporters and importers to distributors and small businesses, our members come from all walks of life and backgrounds, but they share one common goal: **to make their way in this world and achieve their targets!**

We believe that if you have a passion for something, then you should be able to do it – and we want to help you make your dreams a reality!

Mission

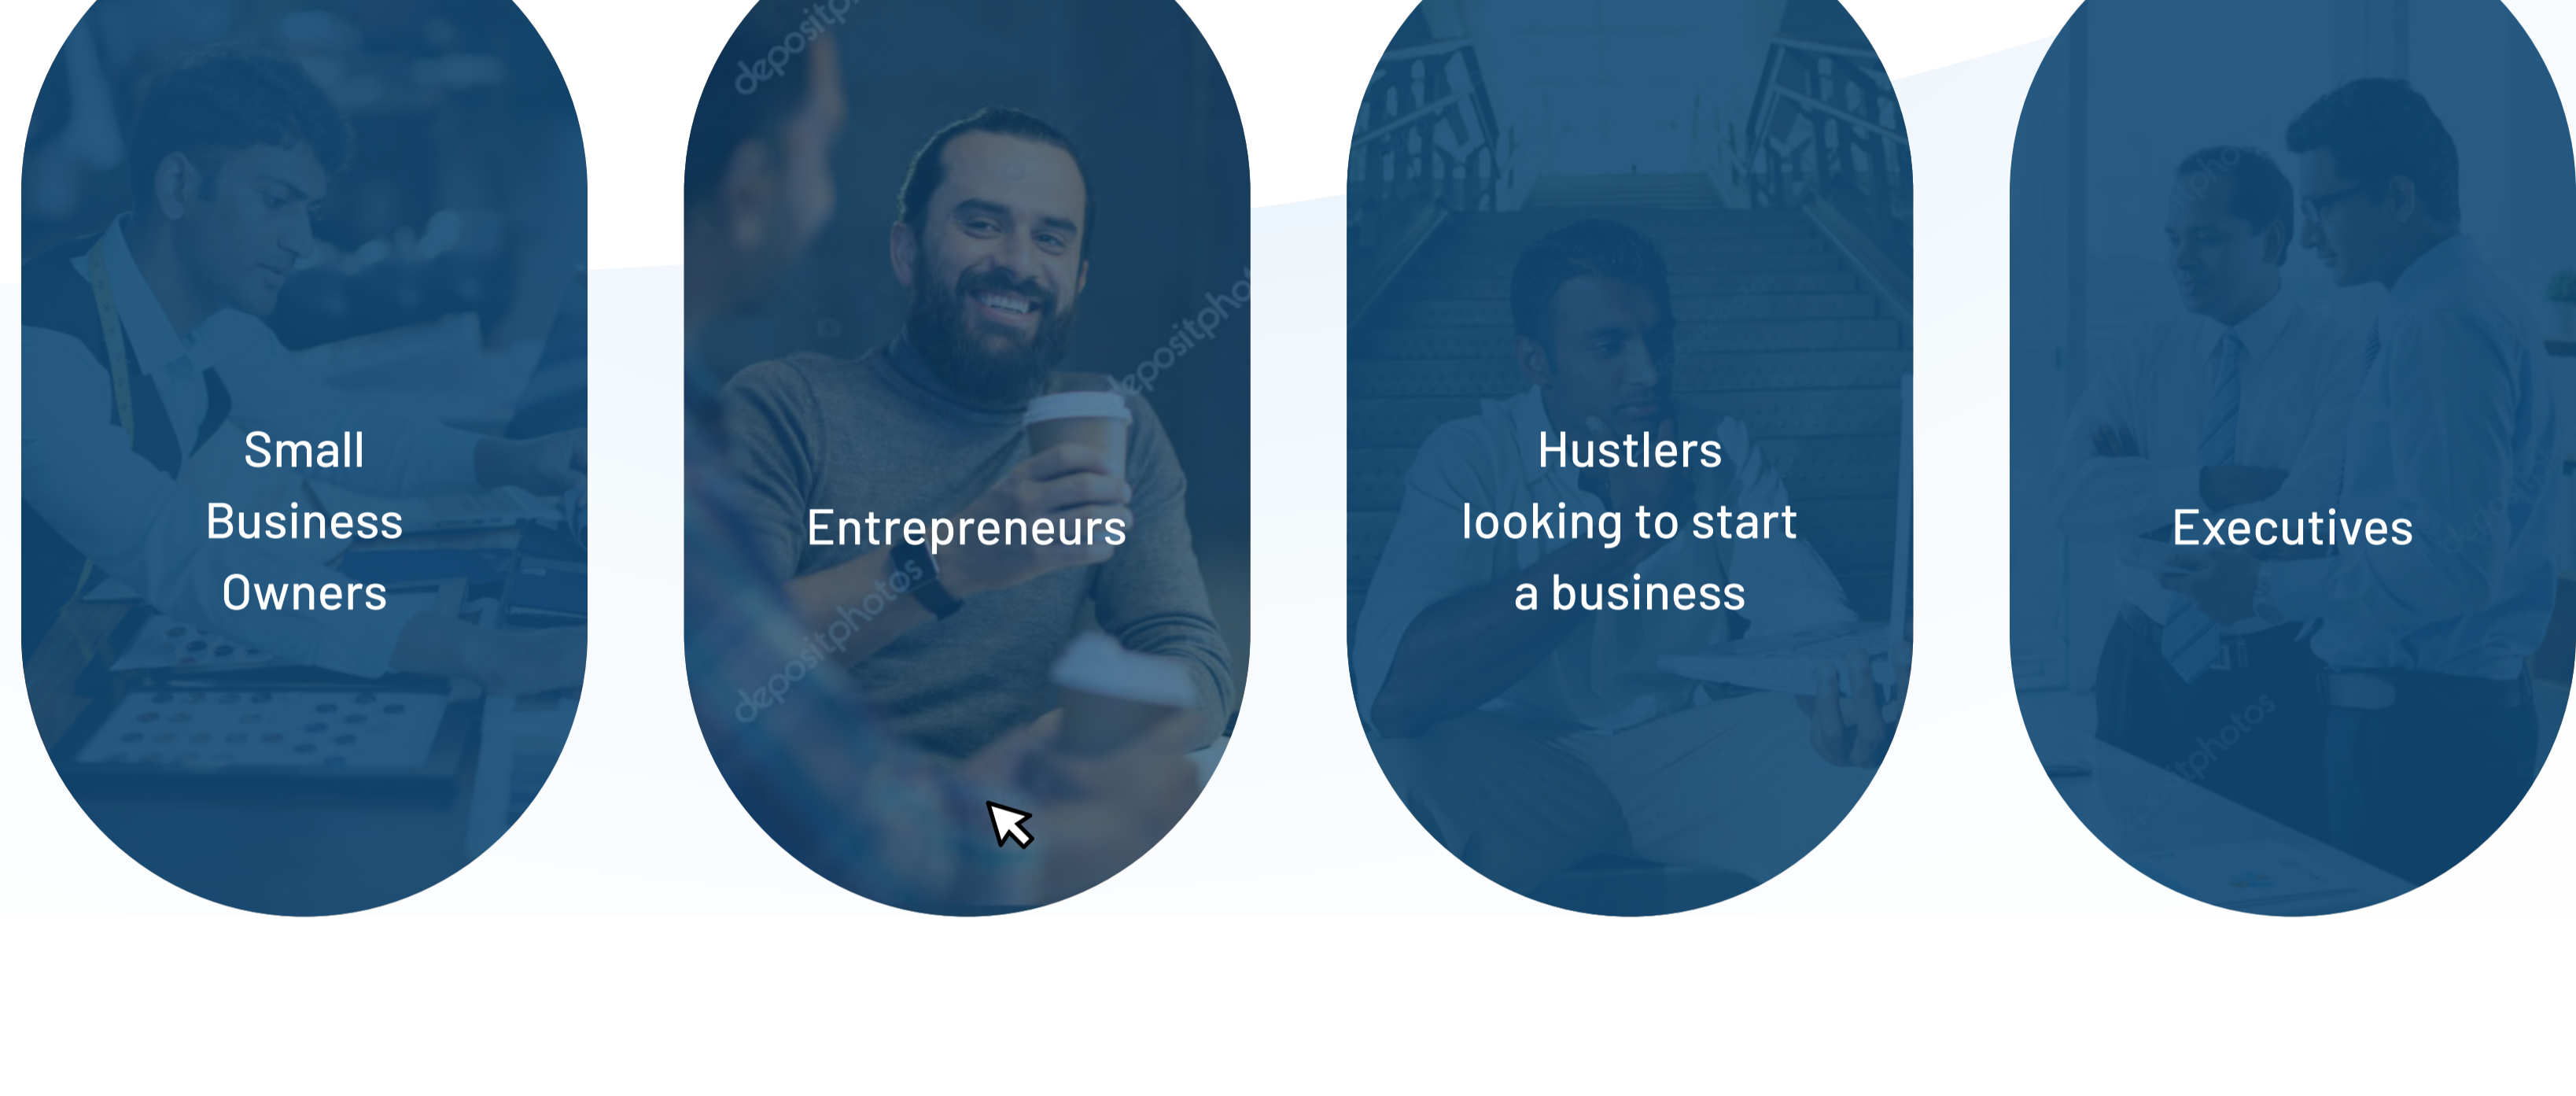

The difficulties Indian MSMEs face, particularly when it comes to competing with foreign firms, have been widely reported. In order to compete with other nations around the world, we want to empower and build India for the World.

Vision

Commun80 was built with 3 major visions in mind:

- ◆ Creating strong communities for MSMEs to collaborate and find new clients
- ◆ Increasing CEO and corporate leader trust for future needs and investments
- ◆ Enabling MSME, Dealers, and Small Businessmen to access knowledge-based solutions

Who is it for?

Significance of MSMEs

Why we are your trusted companion
