
Enabling Azure Cost Optimization

Governance and best practices,
insights and recommendations,
cost controls and guardrails,
and much more

SAXON

Did you know?

"49% OF RESPONDENTS SAID
CLOUD COSTS ARE HIGHER
THAN THEY SHOULD BE."

→ Azure Cloud Infrastructure optimization ensures efficient Resource utilization, Reducing costs, and Enhancing Performance, which is crucial for maximizing business value.

3 Key Pillars of our Cloud Cost Optimization Approach

Visibility

Optimization

Governance

WHAT WE DO -TO MAXIMIZE RETURNS FROM YOUR CLOUD EXPENDITURE

~40% Reduction In Cloud Spend

- Cost management governance
- Cost-relevant insights and recommendations
- Azure Advisor best practice recommendations
- Cost controls and guardrails
- Azure offers and licensing terms
- Optimizing workload costs
- Resources to help you save

SAXON

A man in a dark suit is shown in profile, looking at a tablet. The tablet displays various data visualizations including a line graph, a bar chart, and a pie chart. The background is a city skyline with several skyscrapers, including the Empire State Building, under a hazy, orange-tinted sky. The overall image has a professional and data-driven aesthetic.

Cost Optimization Framework

Saxon would gather data from cx's on

- Existing cost details
- Inventory of Azure services
- Usage patterns
- Performance metrics
- ongoing Operational Costs
- Governance mechanism

Phase -I

Data Gathering & Cost Analysis (Free Assessment)

Perform Cost Analysis at Management Group, Subscription, Resource Group, Resource level & Identify the opportunities of cost savings

Saxon will Provide the outcome of the Assessment

- Observations
- Metrics
- Reports

Phase -II

Recommendation on Cost Optimization & Strategy Roadmap

Prioritization of Cost Optimization & share Cost optimization implementation Roadmap

Saxon would provide

- Prioritized recommendations
- for cost saving opportunities
- Strategy roadmap for the implementation

Discuss

- Logistics & Financials

Phase -III

Implementation of Cost optimization Recommendations

Saxon team works with cx's engineering team to provide High quality solutions in 2 phases

- Immediate Impact
- Long term sustainability

Add - on

Cost Optimization Managed Services Offering

- Build and adjust cost optimization strategy (ongoing)
- Automate cost tracking and management
- Ensure ongoing cost savings

Saxon would provide

- Cost savings summary
 - at Management Group
 - Subscription
 - Resource Group
 - Resource level
- Comparative stats before & after cost optimization

Assessment

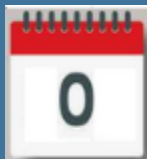

WONDERING
WHERE TO
START?

Phase 1 (Azure Cost Analysis)

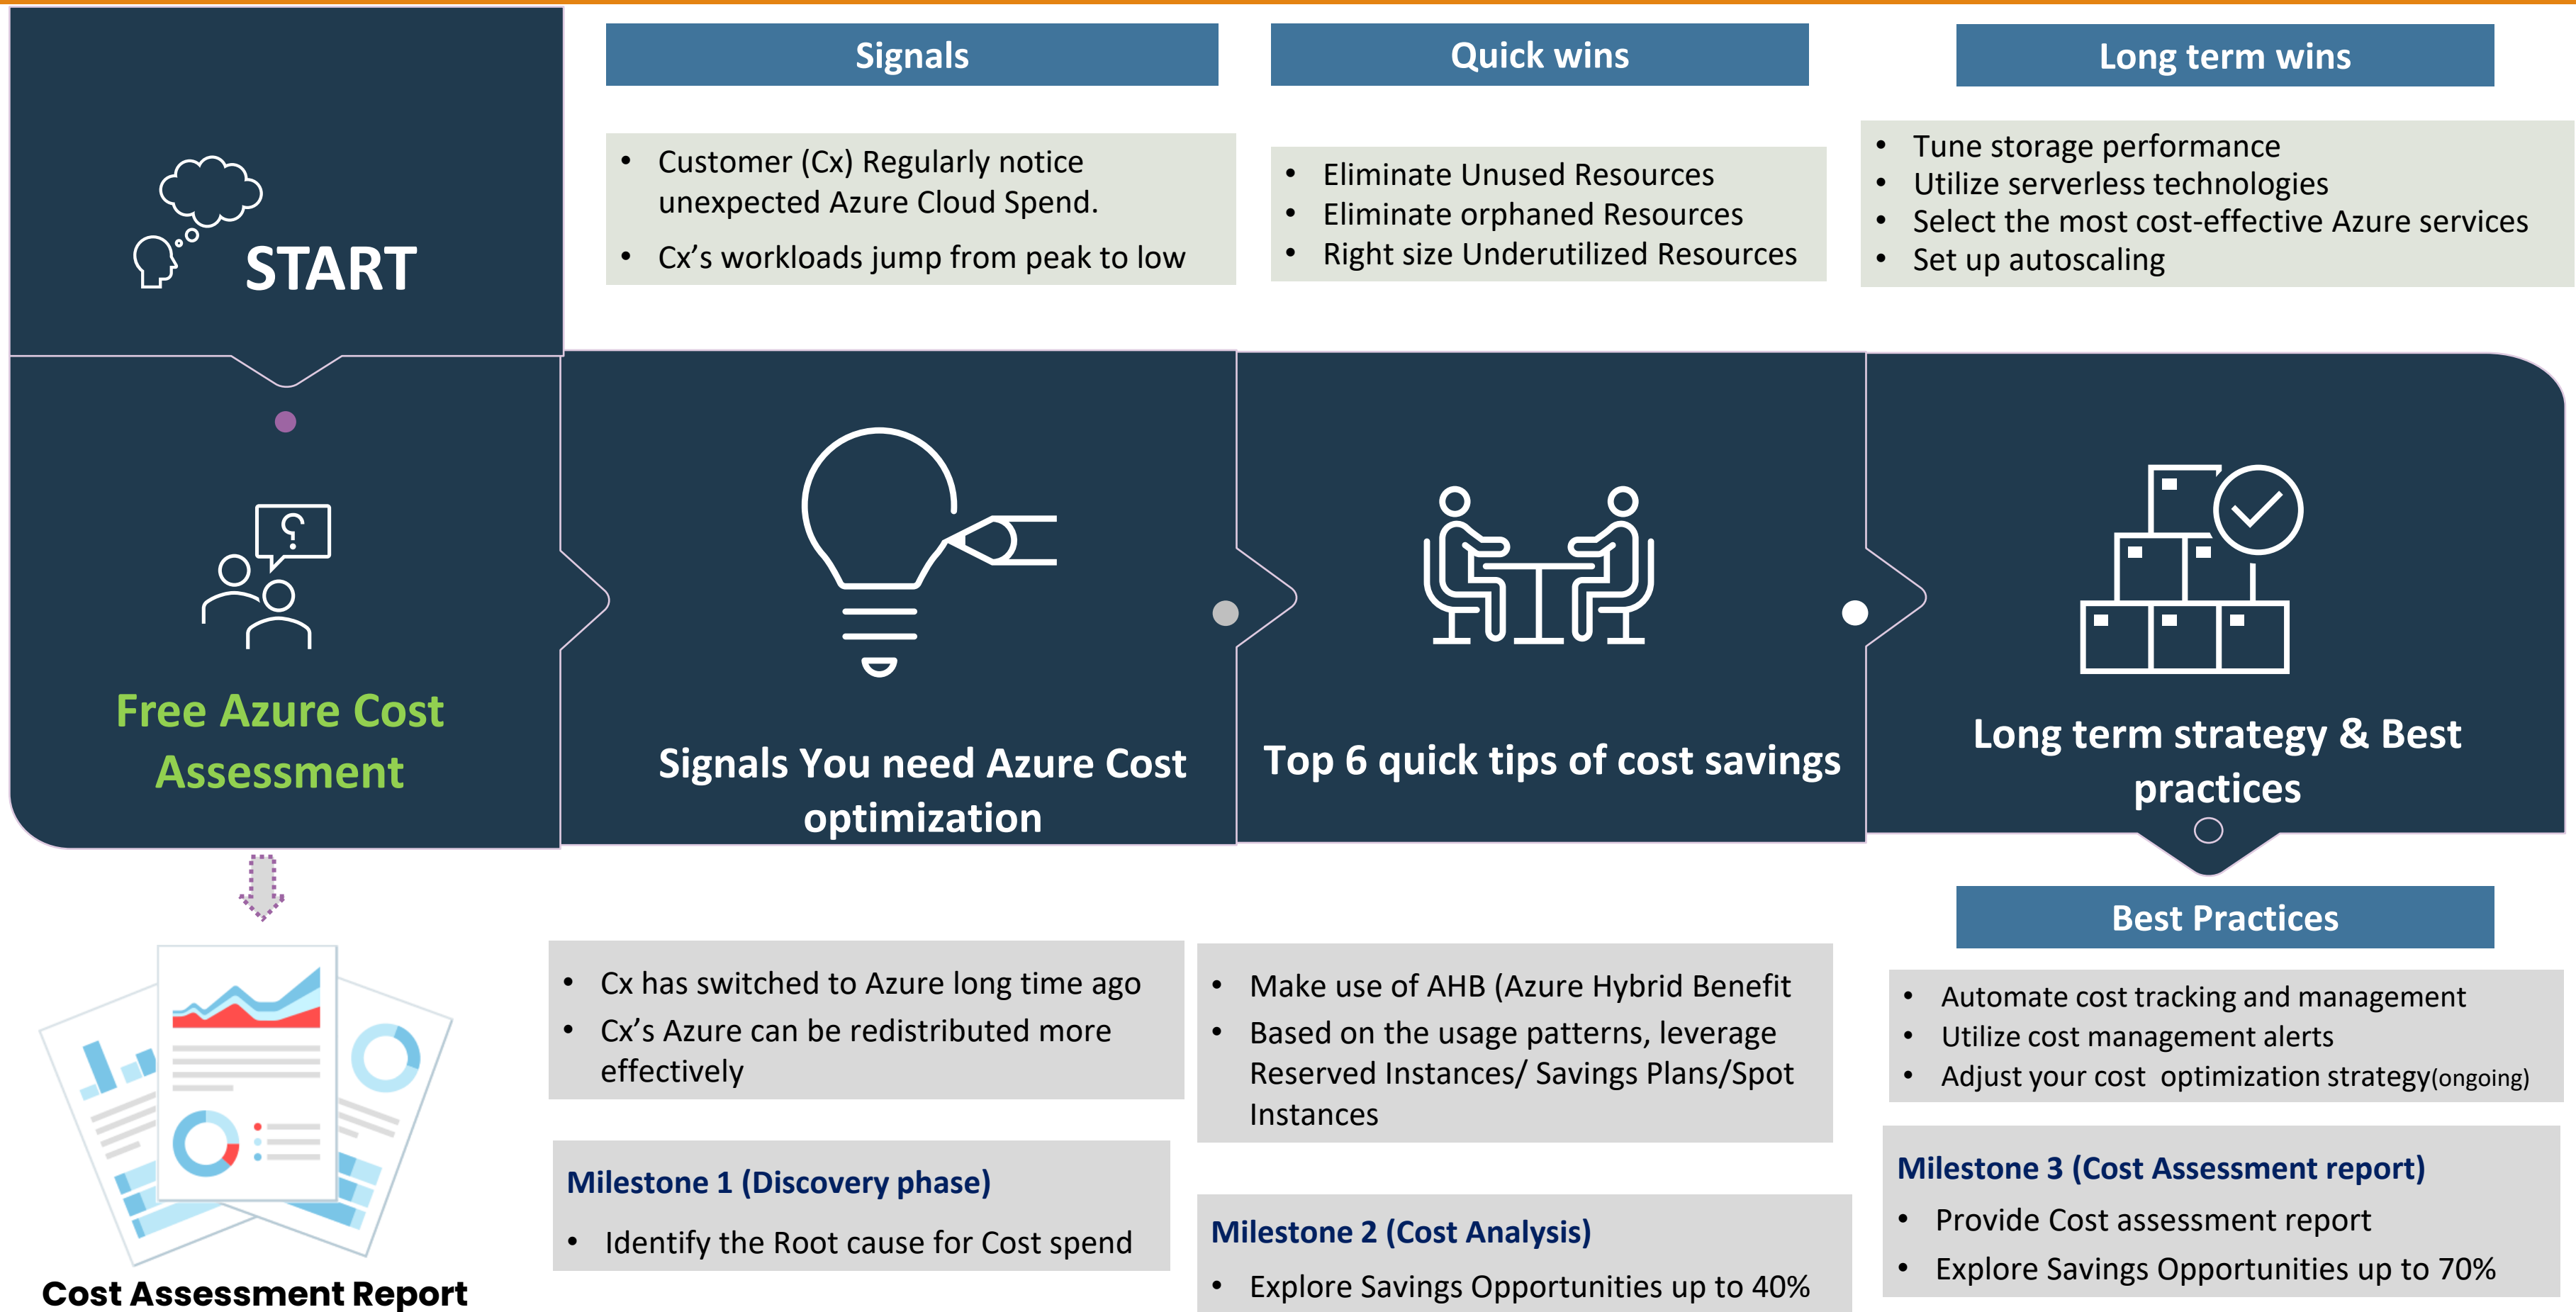

Cost Assessment Details – Day wise Approach -- Day 0, Day 1

Phases	Day wise Approach (Summary)	Deliverables
<p style="text-align: center; font-size: 24px; font-weight: bold;">Phase 1 (Azure cost Analysis)</p>	<p>Day 0 --></p> <div style="text-align: center;">  </div> <p>Initial Discovery [Engage with the customer (Cx)]</p>	<ul style="list-style-type: none"> • Assess current Azure estate and cloud journey. • Identify current challenges and future expectations. • Review past optimization efforts by in-house or external teams. • Present Saxon's Cost Optimization Methodology • Discuss Saxon's phased approach. • Highlight additional value-add services (Performance, Reliability, optimization) • Provide details of Saxon's Azure engineers and their specializations
	<p>Outcome of Day 0 : Upon approval, schedule Project Kick-off meeting & Get Reader access to explore the Cx's Azure environment</p>	
	<p>Day 1 --></p> <div style="text-align: center;">  </div> <p>Discovery – Azure Ecosystem</p>	<ul style="list-style-type: none"> • Identify Management Groups, Subscriptions, Resource Groups, and Resources. • Analyze usage patterns on different time scales (Month/Week/Day/Hour). • Understand detailed usage patterns across Subscriptions, Resource Groups, and Resources (Monthly, Location, Meter, Meter Subcategory, Environment, Charge type, Billing period, Service tiers, Tags, etc.). • Conduct a detailed examination of permutations and combinations to derive pattern logic. • Document the observations.
	<p>Outcome of Day 1 : Document the Inventory list & Usage patterns</p>	

Cost Assessment – Phase wise Approach -- Day 2, Day 3

Phases	Day wise Approach (Summary)	Deliverables
<p style="text-align: center; font-size: 24px; font-weight: bold;">Phase 1 (Azure Cost Analysis)</p>	<p>Day 2 --></p>  <p>Cost Assessment & Analysis</p>	<ul style="list-style-type: none"> • Identify Long-Term Cost Savings Opportunities. • Identify Quick-Win Opportunities. • Assess Risks to Business Data Security and Vulnerabilities. • Identify Resource Waste, Scheduling, and Scaling Opportunities. • Evaluate Automation Opportunities in Azure Costing. • Analyze Workloads and Interdependencies between Performance and Cost. • Conduct Cost Analysis at Subscription, Resource Group, and Resource Levels. • Explore Reusable Cost Optimization Techniques. • Analyze Existing Licenses Usage and AHB Opportunities. • Conduct Cost Drivers and Tagging Analysis. • Review and Assess the Existing Cost Governance Process, including Monitoring and Alerts.
	<p>Outcome of Day 2 : Document the Cost Analysis report (Strategy to Tactical level)</p>	
	<p>Day 3 --></p>  <p>Azure Cost Analysis, Savings & Optimization Briefing</p>	<ul style="list-style-type: none"> • Provide a Cloud Inventory Summary for the Customer (Cx). • Outline Cloud Cost Challenges and Resource Distribution Across Regions. • Offer a Comprehensive Cloud Spend Summary for Cx. • Deliver a Sample Cloud Cost Consumption Report from High Level to Granular Detail. • Present an Analysis of Resource Groups, Services, and Metered Categories. • Propose Strategies for Reserved Instances, Savings Plans, Spot Instances, and Pay-as-You-Go. • Implement Tagging and Cost Allocation Strategies. • Deliver an Analysis Report on Current Strengths and Improvement Opportunities. • Summarize Usage Patterns and Conduct Cost Trend Analysis. • Compare Current State vs Future State of Cx Cloud Spend. • Identify Day-wise, Month-wise, and Quarter-wise Cost Savings Opportunities. • Pinpoint Savings at Subscription, Resource Group, and Resource Levels. • Highlight Savings Opportunities by Service Tier and Environment (Dev/UAT/Prod). • Propose Savings through Resource Utilization and Right Sizing. • Summarize Overall Cost Savings Opportunities in % and \$/local currency, emphasizing Cost-Effective Services. • Present Opportunities for Enhanced Cost Governance.
<p>Outcome of Day 3 : • 1 to 2 hrs of presentation to the cx on Cost Analysis report and Optimization opportunities & Next steps</p> <ul style="list-style-type: none"> • Provide 10-page Cost Analysis Report tailored for Cx's environment based on current usage & resource demand 		

Cost Assessment – Indicators , Quick win and Long term Wins strategy

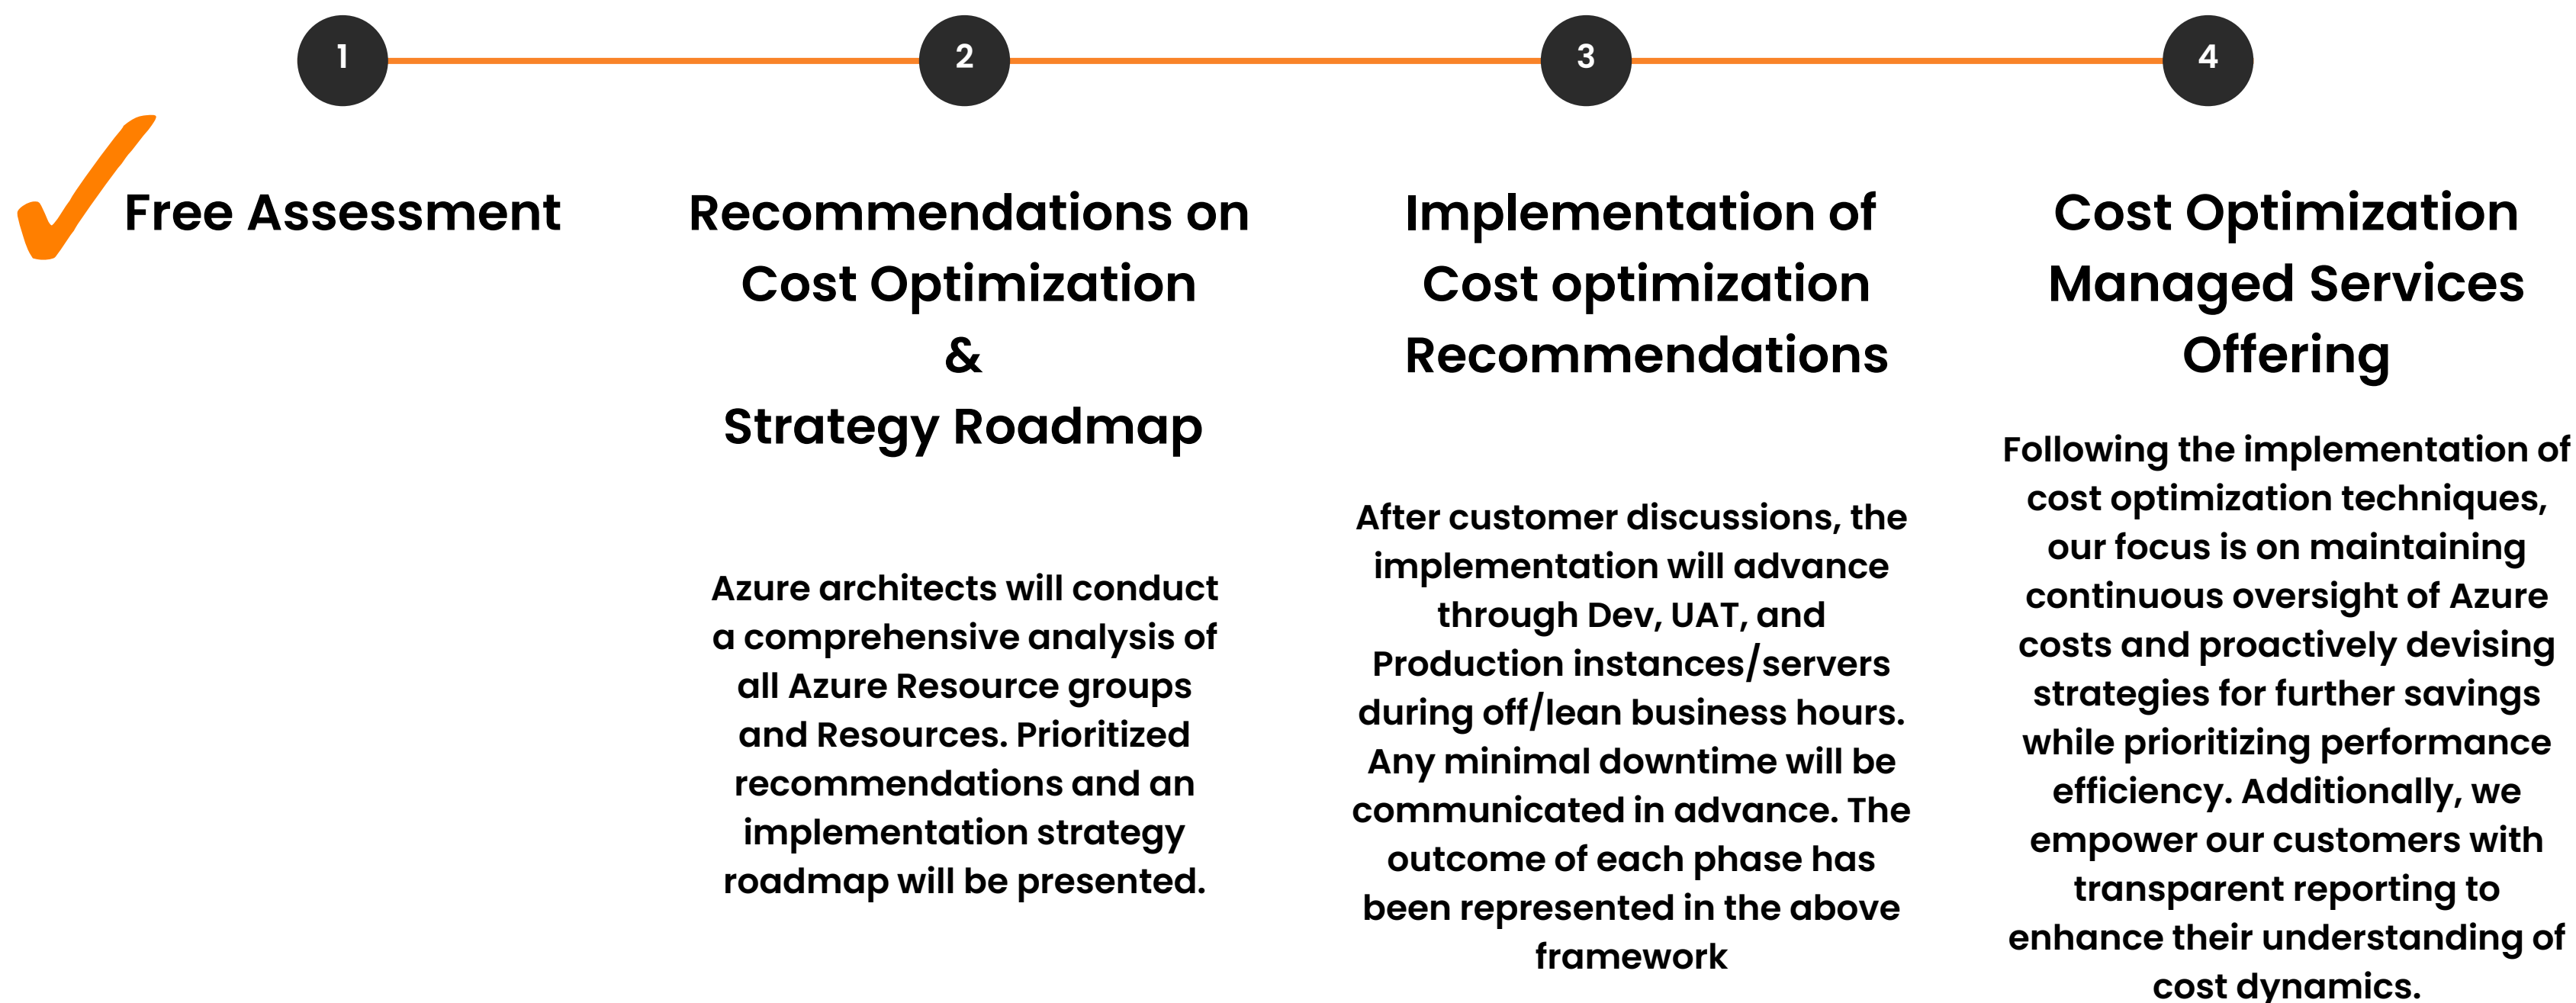

CLIENT TESTIMONIALS

“I appreciate your dedication and professionalism in carrying out this assessment and furnishing us with valuable information. It truly reflects the extensive knowledge and expertise possessed by the Saxon team, leaving me thoroughly impressed.”
