Embark on a transformative journey with Microsoft Copilot, an intelligent AI-powered assistant designed to revolutionize your workplace. Elevate productivity, foster innovation, and fortify your digital landscape effortlessly.

What We Help You Do:

Get Ready:

Prepare for success with Saxon. AI. Participate in our Copilot workshop, undergo a Technical Readiness Assessment to identify organizational gaps, and delve into the ethical aspects of Responsible AI, ensuring a seamless and responsible integration.

Deploy & Educate:

At Saxon.AI, our focus extends beyond deployment. We prioritize empowering your workforce to embrace Copilot. Deploy with a focus on enhancing Employee Experience, ensuring seamless adoption and utilization across your team.

Innovate:

Enter the innovation phase, where we dive deep into Copilot's toolkit. Explore Copilot plugins, unravel the potential of Content AI, and discover how these tools can drive innovation within your organization, redefining possibilities.

Sustain:

With Copilot deployed and in use, our partnership continues. Sustain momentum with ongoing support from Saxon.AI. Benefit from expert guidance on new Copilot features, ensuring continual growth and optimization.

Integration with Microsoft 365:

Seamlessly integrate Copilot within Microsoft 365 applications - Word, Excel, PowerPoint, Outlook, Teams, and more. Elevate collaboration, foster creativity, and enhance productivity within your familiar Microsoft 365 ecosystem.

Powering the Power Platform:

Articulate app requirements effortlessly within Microsoft Power Apps with Copilot's intuitive integration. Streamline app creation and data gathering, ensuring efficient and customized app development.

Azure Optimization:

Leverage Copilot's tailored insights within Azure for optimized cost efficiency, scalability, security, and reliability. Coordinate data flow among Azure services, gaining actionable insights and swift issue resolution.

Enhanced Security Measures:

Distill complex data into actionable insights with Copilot, fortifying security measures by preemptively identifying potential cyber threats. Equip your security teams with real-time guidance, ensuring proactive incident response.

Employee Experience with Viva:

Empower teams through Copilot's integration with Microsoft Viva. Offer self-service insights and experiences, fostering team health assessments, priority setting using OKRs, and continuous career upskilling.
