

**SBI
CONSULTING**

Who is **SBI Consulting**?

We are a passionate team of MLOPS-, Data & Analytics architects & experts, designing & providing end-to-end data foundations.

We call upon our longstanding strong expertise of the market leading data platforms (SAS, Microsoft) and proven open-source and cloud platforms.

We thrive when we co-create your state of the art data organization, that will support your business functions

We offer 5 modes of collaboration: Consulting, Project, Managed Services, Operations, Training & coaching.

Key elements in our approach are goal-oriented innovation, pragmatism and result driven.

Data and Analytics. It's what we do.

SBI, helping clients since 2007

We help our clients
architecting, designing,
integrating and supporting
MLOPS-, data & analytics
solutions.

We call upon our longstanding strong expertise of the SAS Business Analytics Framework, the Microsoft Azure Platform and proven open-source and cloud platforms.

Our Mission

We help our clients to excel in the data & analytics value creation process, by applying **incremental** and **durable** improvements and by conducting them in building a data driven organization.

We aim at being **inspiring** and **pragmatic** partners for our clients, aligning concrete results within a future proof vision.
