

Reinventing Kubernetes Resource Management

www.scaleops.com

All-in-One Resource Management Platform for Kubernetes

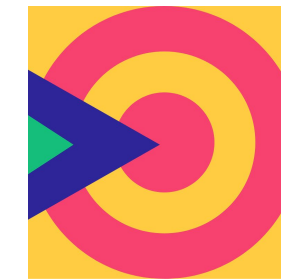

Reduce Cost

Reduce cloud spend by up to 90%

Free Engineers

Eliminate repeated configuration cycles

Ensure Performance

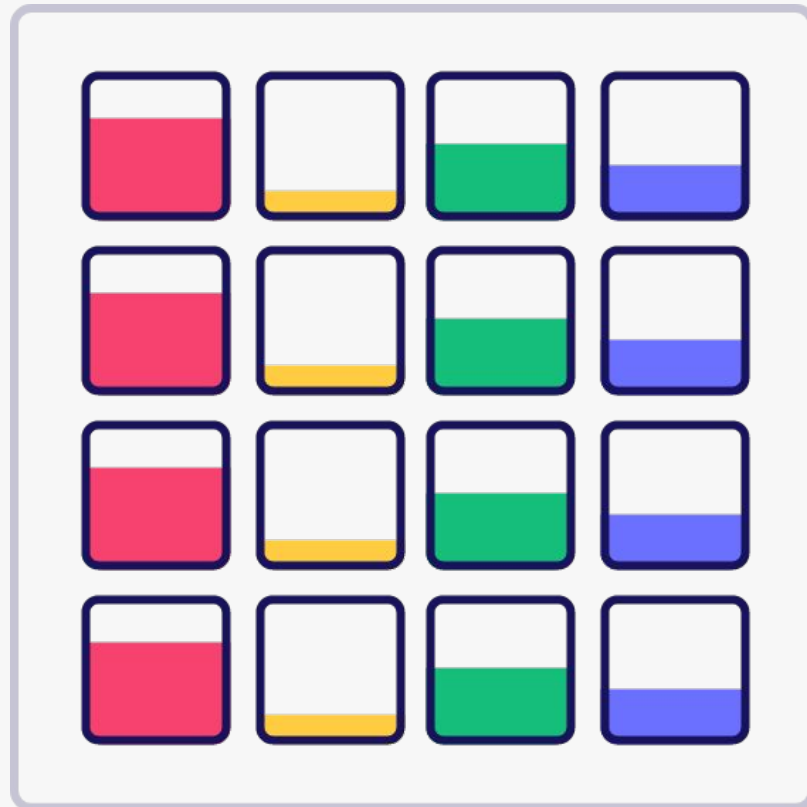

Align resource allocation with business goals

Our Mission

Provide the Most Easy-to-Use Platform to Manage Cloud Resources

Resource Optimization

Input

Nodes - 1421
Cost - \$42,000
Latency 

Optimization Engine

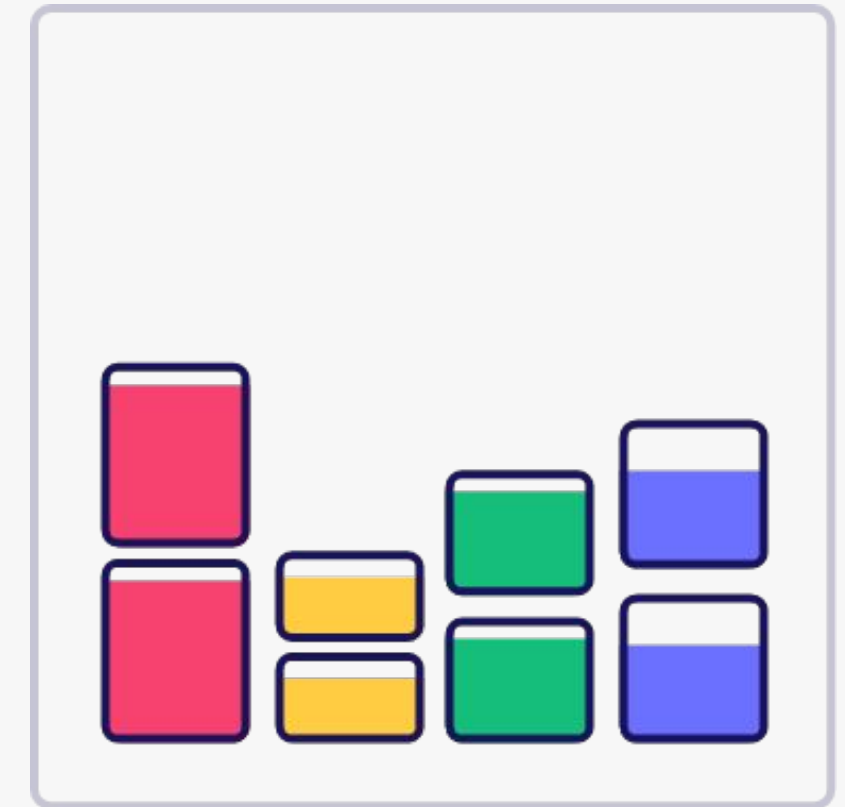

1. Get Recommendations

2. Select Policies

3. Autonomously
Workload Optimization

Output

Nodes - 285
Cost - \$8,430
Latency 

Run **more** workloads using **less** resources

Fast & Simple

01

02

03

2 min installation
requiring read-only
permissions

Runs on your cluster
Keep all information in
your hands to ensure
your data is fully secured

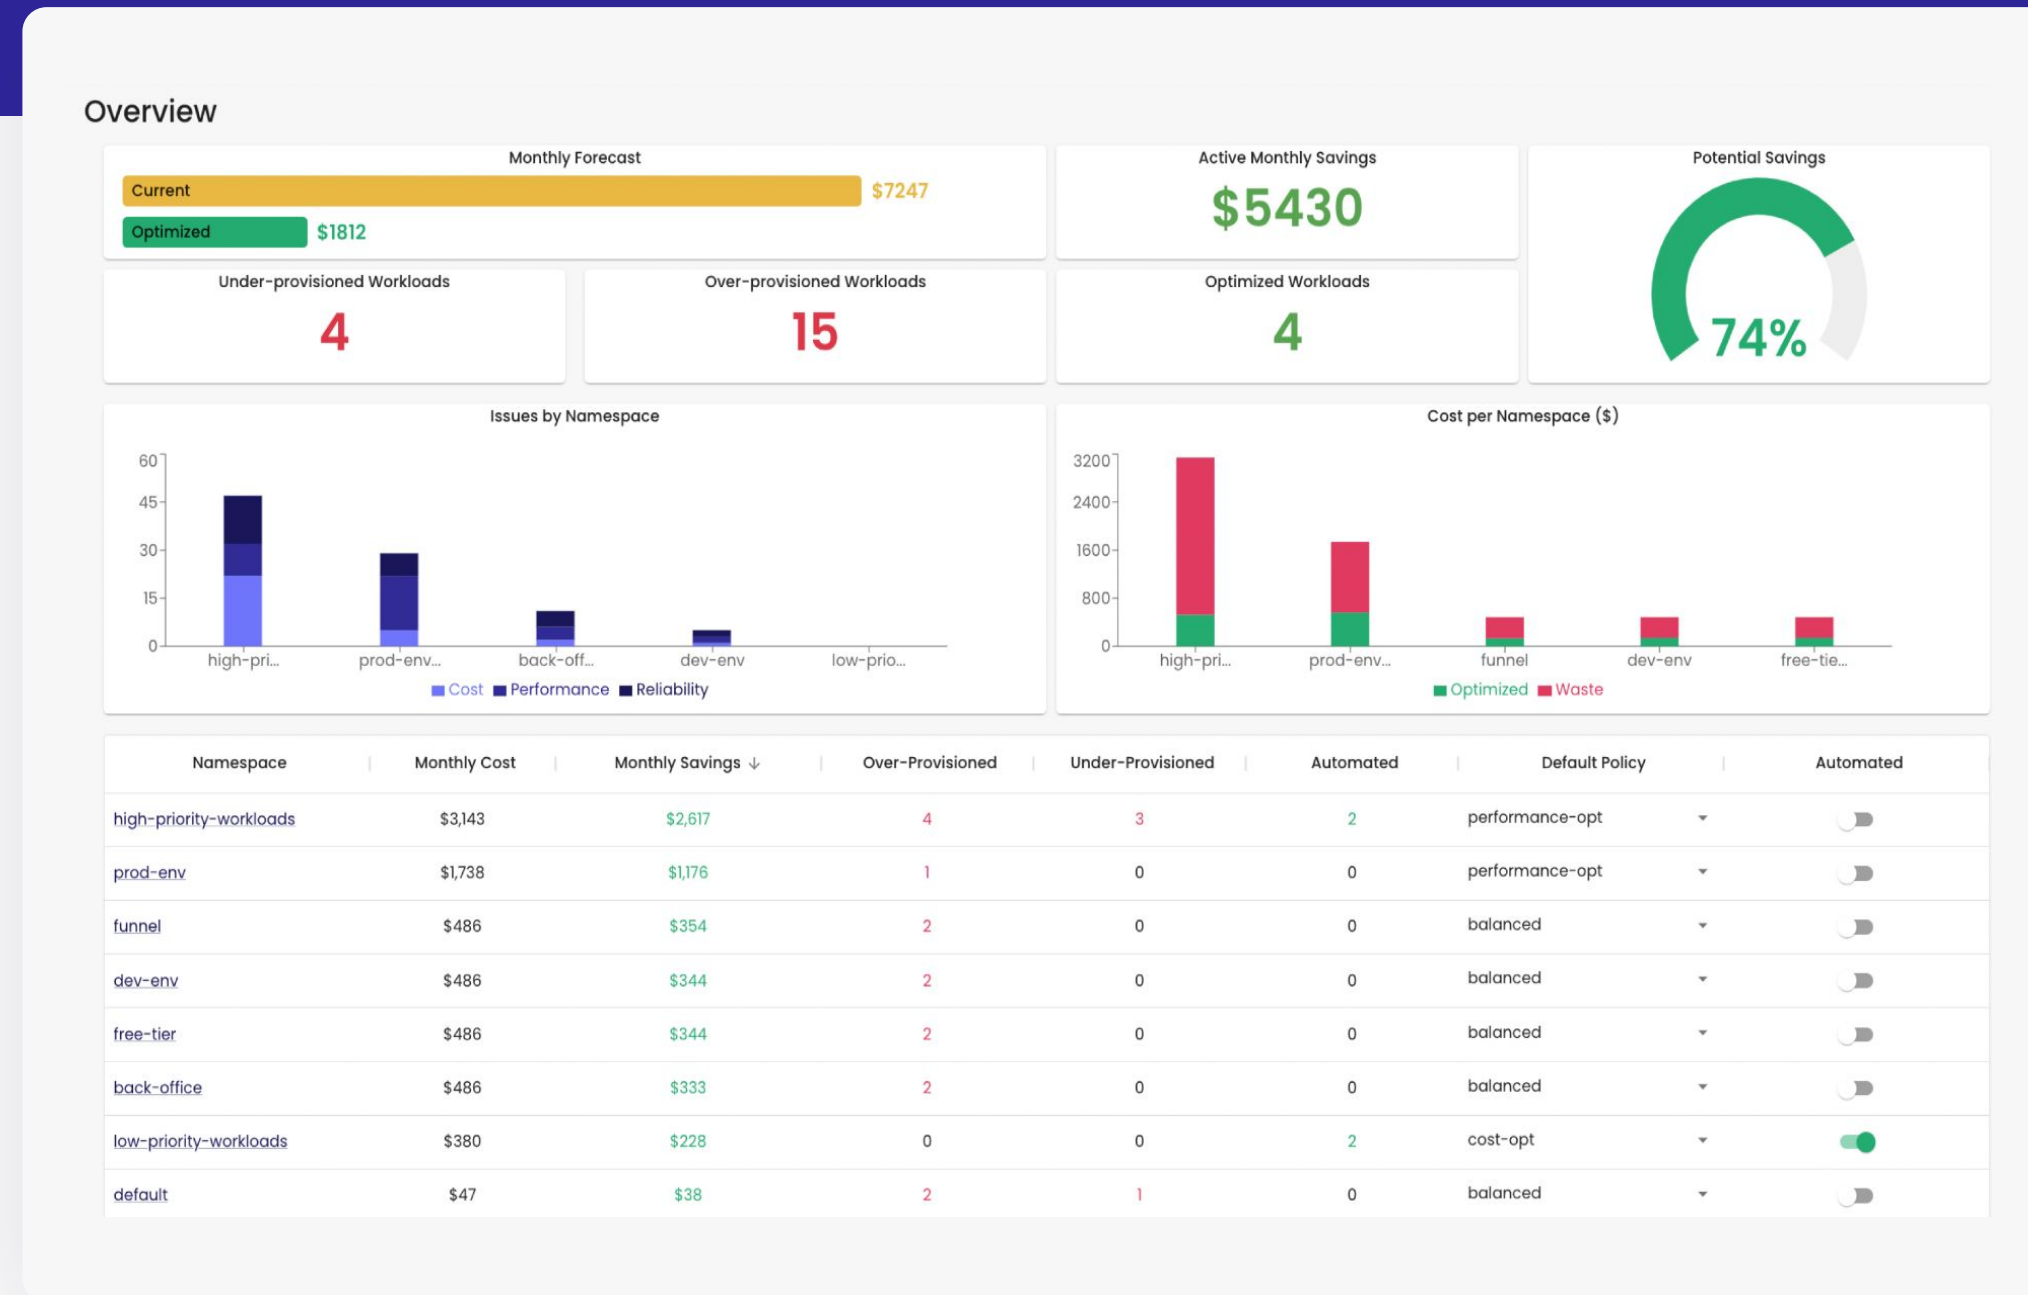

Optimize your k8s cluster
Gradually optimize
workloads according to your
appetite

You're 3 Mins Away From Optimizing Your Cluster

Fast & Simple

04

Install in less than a minute, gain value within seconds

Any Workload. Any Infrastructure.

aws

On-Premise
