HOW TO START THE SHOPIFY CONNECTOR SETUP

1. You must have rights to install the Shopify app in BC or already have it installed.

2. BC must already fully configured to work without Shopify.

3. You must have rights to modify user rights if you don't have the SUPER rights.

4. You must have a Shopify Shop where you have rights to install an app.

5. Do you want to Sync your products from BC to Shopify or from Shopify to BC?

6. Think about how existing products in both systems can be mapped to each other.
