

Cyber Maturity Pathfinder

How do you prepare for cyber threats?

Our Cyber Maturity Pathfinder assesses your current security posture against industry benchmarks, identifying vulnerabilities and providing a roadmap to strengthen your defences for the long term.

Based on the recommendations of Microsoft Experts in security, we will help you to analyse your organisation's alignment to common cybersecurity goals to develop a customised plan, designed to help strengthen your posture against human operated ransomware and data leaks from insider threats.

Improve your security awareness with our Cyber Maturity Pathfinder

While human-operated ransomware and insider threats pose severe risks, over 98% of these attacks can be prevented through proper security hygiene processes and solutions. Implementing the right policies and activities strengthen your cybersecurity posture.

We will give you knowledge, insights and deploy:

- **Microsoft Defender Vulnerability Management**
Reduce cyber risk with continuous vulnerability discovery, risk-based prioritisation, and remediation.
- **Microsoft Purview Insider Risk Management**
Minimises internal risks by enabling you to detect, investigate, and act on malicious and inadvertent activities.
- **Microsoft Defender for Cloud Apps**
Full protection for SaaS applications, helping you monitor and protect your cloud app data.

Pathfinder Highlights:

Identify a baseline of your organisation's cybersecurity policies

Use Microsoft Security capabilities to generate an overview of areas of focus

Map baseline and security scan results to common threat scenarios

Develop joint next steps

Cyber Maturity Pathfinder

What to expect

Over the four week Cyber Maturity Pathfinder, SCC require just 4 hours of your time to get set up and report back the results of the data collected. You will then take away an actionable tailored plan to improve your security strategy.

Why SCC?

As part of the Microsoft Intelligent Security Association (MISA) and holding all Microsoft Security Specialisations, SCC ranks within the top 1% of security partners for Microsoft worldwide.

Through dedicated funding from Microsoft, SCC delivers a variety of engagements, known as Pathfinders, that offers actionable insights from your environment, uncovering unidentified risks and threats, and creating a comprehensive security roadmap for your organisation.
