Detect and prevent advanced attacks with MDR for End-User

About SCC Cyber:

SCC Cyber is a trusted cybersecurity partner, protecting and supporting our clients as we mitigate risk together. Our passionate team of experts works collaboratively with you to create a culture of cyber responsibility and create confidence throughout your organisation.

What we offer

Detect and prevent advanced attacks with a unified technology suite to secure your users and devices regardless of their location. Our MDR for End-user service combines Microsoft Sentinel, Defender for Endpoint, and the Microsoft 365 Defender stack with our highly experienced security operations team to protect your hybrid workforce. Our team will work around-the-clock to identify, investigate, and rapidly contain threats to prevent and reduce the impact of successful breaches.

Protecting your end users across:

- Endpoints;
- Identities;
- Email & Documents;
- and Cloud Applications.

What's included?

- 24/7/365 Security Operations Center
- Cyber Services Manager
- Threat Intelligence
- Threat detection, automated response, and containment
- Deployment and configuration of Microsoft Sentinel and Defender for Endpoint

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
