

XDR Pathfinder

Are you confident that your organisation is truly secure?

As threats in the cyber landscape increase, becoming more complex and sophisticated, building cyber resilience into the fabric of your organisation is just as crucial as financial resilience.

Our XDR pathfinder can help you understand your environment by utilising the full Microsoft Security Stack to develop a strategic, customised plan based on the recommendations of Microsoft accredited SCC experts.

Improve your security posture with our XDR Pathfinder

Your organisation will gain real-time cyber threat detection and response capabilities, enhancing your overall security posture.

We will give you knowledge, insights and deploy:

- **Microsoft Entra ID**
protect your hybrid identities
- **Microsoft Defender for Endpoint**
secure endpoint devices across your multiplatform enterprise
- **Microsoft Defender for Cloud**
visibility of your SaaS apps
- **Microsoft Defender for Office 365**
safeguard your email, documents and collaboration tools
- **Microsoft Defender Vulnerability Management**
track and remediate exposed risks
- **Microsoft Sentinel**
optimising threat detection, investigation and response.

What our customers say

“Prior to our XDR pathfinder, we struggled with resource constraints and managing false positives. Now we utilise Microsoft threat intelligence to gain a better understanding of vulnerabilities. We can stop threats at the source before they cause damage.”

Pathfinder Highlights:

Review your security goals

Identify real threats in your cloud environment

Map identified threats to specific solutions

Showcase security scenarios with product demos

Develop joint next steps

XDR Pathfinder

What to expect

Over the 30 day XDR pathfinder, SCC require just 4 hours of your time to get set up and report back the results of the data collected. You will then take away an actionable tailored plan to improve your security strategy.

Why SCC?

SCC are a member of Microsoft Intelligent Security Association and a Microsoft Security Solutions Partner.

We are proud to hold all four advanced specialisations in the security space strengthening confidence in our expertise and solidifying our position as a leading provider of managed security services.

SCC Cyber leverage the power of Microsoft Sentinel, Defender for Endpoint, and the Microsoft 365 Defender stack combined with our Security Operations Centre to strengthen your security posture and deliver rapid detection & response across your organisation.
