

Cloud Adoption Framework: 1-Day Workshop

This workshop will show you, how to successfully implement a data platform modernization, based on the Cloud Adoption Framework for Azure.

Part of a company's digitalization strategy is the modernization of its data platform. In order to successfully carry out this project, it is advisable to implement the modernization in a structured approach. We will show you how this can be easily achieved with the Cloud Adoption Framework for Azure.

Agenda:

- Introduction to the Microsoft Cloud Adoption Framework for Azure
- Introduction to Azure Data Services
- Mapping the data platform modernization process to the phase model from the Cloud Adoption Framework
- Example: Migration from a relational database on-premises to Azure Services, taking into account the necessary applications and dependencies
- Identification of criteria for selecting data services in Azure

Conditions:

- Duration: 1 Day
- Location: virtual via Microsoft Teams
- Number of participants: to be determined with the customer
- Trainer: 2 experts
- Cost: 1550 € per day (Net price plus statutory VAT, includes electronic delivery of training materials)
