

# HOME OFFICE UKVI COMPLIANCE DELIVERED

## About SEAtS ONE | Home Office UKVI Compliance Solution:

SEAtS ONE Platform offers a comprehensive range of solutions including Student Attendance, AI Learning Analytics, Compliance Reporting, Early Alert, Student CRM, Smart Space Utilization and Timetabling software tailored for Education Institutions. Built on the robust Microsoft Azure Cloud, our platform features extensive enterprise integrations, alongside top-tier accessibility and information security measures. This fusion provides a springboard for digital transformation in Higher Education.

### What we offer

SEAtS ONE **Home Office UKVI Compliance System** is a comprehensive solution capturing and reporting vital compliance data for universities and colleges. It meets stringent Home Office requirements by automating data capture and workflow checks, reducing audit prep time.

Built on the secure Microsoft Azure Cloud, it offers superior security, scalability, and ease of use. Entra ID University single sign-on integration ensures seamless access, while pre-built connectors, email and document templates, and customized workflows make setup a breeze. Together, SEAtS ONE and Microsoft Azure

- ✓ Safeguard Tier 4 licenses.
- ✓ Streamline compliance reporting and audit preparation.
- ✓ Boost international student outcomes.

### What our customers are saying

*"SEAtS offered us an immediate solution to support our Visa and immigration Compliance Policies and Processes for the entire South Wales campus.*

*The software easily interfaced with our existing campus systems."*

– University of South Wales

# Why Microsoft Azure?

## Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools

## Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

## Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

## Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

## Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
