

SEAtS eAttend App Student Attendance Management in class or online

ABOUT eATTEND:

SEAtS eAttend App lets students view their class schedule and record their attendance for each class. Faculty can push notifications directly to their students' device.

See what customers are saying:

"SEAtS provide a range of functionality that goes well beyond capturing attendance. We believe it will be a useful tool to support our teachers and drive student success."

— Merran Davis, Interim Chief Executive, Unitec Institute of Technology

Key Features:

SEAtS has **increased clients' student attendance by 8%** in the first semester after implementation. Guarantee your students completely embrace their new attendance program by providing them with an intuitive mobile app.

Students can **Record Attendance in-app** for each class from their smartphone using QR code, GPS, and Bluetooth check-ins.

Students can **Enter Absences** for **Faculty members to approve them**.

Students can **Record Extracurricular Activities** to their profile, with the ability to attach files for proof of attendance.

Students can **View Class Calendar** by day, week or month so they are never late for class.

In-app Notifications. Lecturers can change a classroom or time or cancel a class and automatically notify students.

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
