# Secure your employees' identity, data, and IP with Securecom and Microsoft 365

## About Securecom

Securecom specialises in cloud, security, and networking services for enterprise and midmarket businesses. Security is inherent in everything we do, and we help organisations grow while remaining secure, productive, and efficient in IT spend.

## What we offer

Securecom developed SecureCARE as a three-phase, customisable roadmap built to keep businesses secure. Customers can personalise our solution depending on their priorities and risk tolerance. **IdentityCARE**—powered by Microsoft 365—is the foundation phase, securing your staff members' identity, data, and intellectual property (IP).

**IdentityCARE** helps protect users by reducing exposure to threats, including phishing campaigns and credential theft. Securecom audits and aligns your Microsoft 365 configuration to Microsoft best practices. It also combines conditional access with multifactor authentication (MFA) to create a robust and intuitive solution aimed at helping you maximise your digital ROI.

In addition, we provide user awareness training materials.

“

**“IdentityCARE protects our business, keeping our people safe and our data secure.”**

# Why Microsoft 365?

## Save your company money

Microsoft 365 is available as a simple, monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense. And without on-premises servers to run email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

## Scale your business quickly and flexibly

Microsoft 365 grows with you on the Microsoft Azure cloud. Adding a new user is as simple as buying an additional license, which allows access to business-critical technology on up to five PCs/Macs and five mobile devices. Microsoft 365 provides many plans to fit the right capability needs and price points for each user in your organisation.

## Technical support

Your Microsoft 365 subscription comes with 24/7 support from a global network of experts, with one-hour response for critical, service-impacting events.

## Financially backed SLA

Get peace of mind knowing your services are available when you need them with a financially backed, 99.9% uptime service-level agreement.

## Simplified IT management

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centres with continuous backup and disaster recovery abilities.

### Business-class email

Build anything from lightweight websites to multi-tier cloud services that scale up as your traffic grows.

### Cloud storage

Rely on geo-redundant cloud storage for backup, archiving, and disaster recovery.

### Meet online

Get actionable insights from your data by taking advantage of a fully compatible, enterprise ready Hadoop service.

### Collaborate, chat privately

Accelerate your mobile app development by using a backend hosted on Microsoft Azure.

Microsoft 365 is a cloud-based subscription service that brings together the best tools for the way people work today. By combining best-in-class apps like Excel and Outlook with powerful cloud services like OneDrive and Microsoft Teams, Microsoft 365 lets anyone create and share anywhere on any device.
