

SEEDiA

SMART SOLAR FURNITURE FOR SMART CITIES

PRODUCT CATALOGUE

Seedia Future

| Seedia Future

Future is cutting edge in design and innovation.

Its simplistic, minimal construction provides universal usage, which is great for modern plazas and industrial interior spaces. Side LED lamps adjust its colours to the surroundings.

Future is here.

Basic color:

RAL 9005

Seedia Urban

Seedia Urban

Urban is all about functionality. By combining modern features and necessary urban elements, such as bike racks and seats, we have created a compelling product for parks and city plazas.

Another asset of Urban are its durable and high quality construction materials.

Basic color:

RAL 7016

- wood type: Natural Ash
- wood color: Transparent

RAL 7035

- wood type: Natural Ash
- wood color: Rustic Oak

Seedia Dashboard

Each product of SEEDiA's brand sends data to specially designed web dashboard. Thanks to the obtained information, we are able to provide predictive maintenance for customers by remote supervision of every device.

By logging to the dashboard, the customer has a preview of the condition of the product in real time and possibility to manage multimedia functions of the device:

- mp3 player (remote creation of an audio library)
- e-paper screen (management of presented content)
- sensors (preview of data from sensors in real time)

Social WiFi Dashboard

Captive Portal

Our captive portal allows you gather all the data you need in order to properly communicate with your customers and personalize their experience.

Splash Page

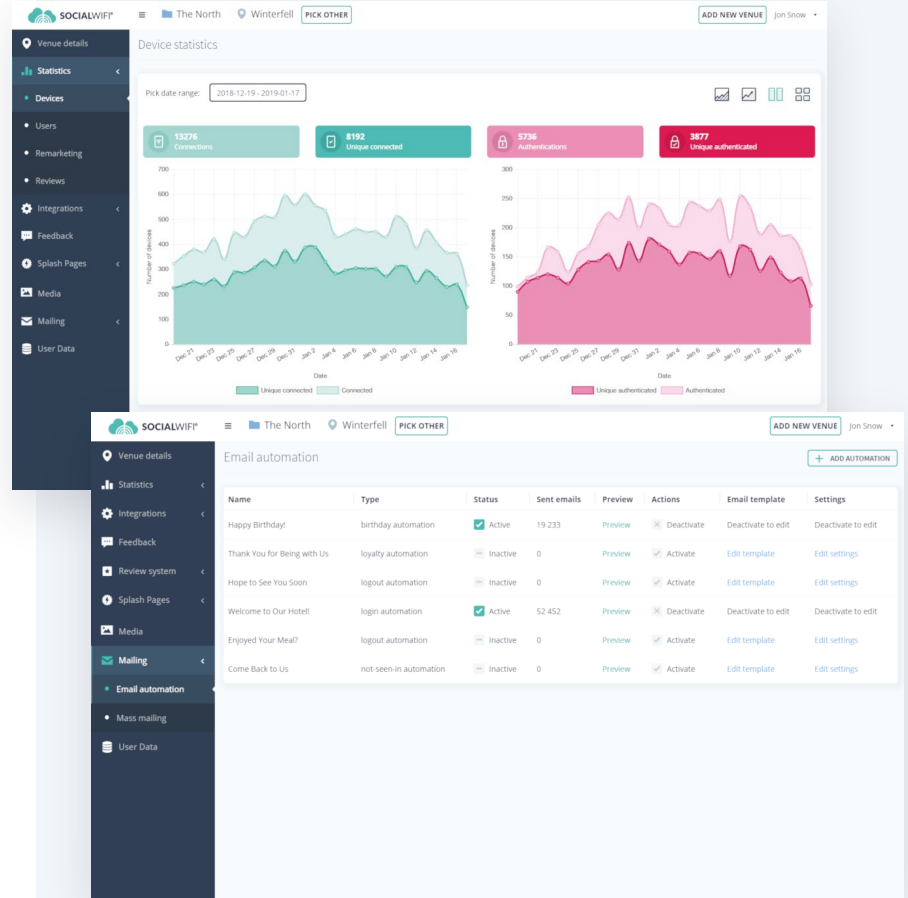

Display any sort of content to your visitors, allowing them to easily learn more about your business, latest events or promotions and offers.

Reviews

Ask your customers for reviews, receive ratings and comments and communicate with your visitors.

Analytics

Analytics are a crucial component of Social WiFi. Getting to know who your customers are and how to best approach them is vital to any line of business.

Additional Products

Trash Cans

We have designed the City Trash Can after watching the real needs of cities - monitoring the level of garbage in baskets for municipal services, as well as for residents - to help them throw away waste to un-filled bins.

Info Kiosks

Prestigious and innovative Future line has also the smart city Infokiosk, equipped with energy saving e-paper screen. It is a space for the communication with citizens allowing gathering their opinions about the city ergonomic.

Bus Shelters

SEEDiA bus stops are energy independent city devices providing informative and multimedia functionalities for citizens, as well as protecting from external urban factors.

Awards

Testimonials

„The bench, which offers users the possibility of charging mobile devices was enthusiastically welcomed by citizens of our city and the city government.”

” **Rafał Zimny**
Chairman of the Board of PKWronki

„The implementation of the project went smoothly and in a timely manner. Installed benches met with great interest from citizens of Żary, who use their functionality on a daily basis. We can recommend this low-emission solution to other cities that would like to install it.”

” **Olaf Napiórkowski**
Deputy Mayor of Żary City

„Smart benches are a great fit to to our modern approach to the playground. We want to meet the needs of visiting parents and children, who gladly make use of the benches and the possibility to charge their smartphones.”

” **Jarosław Adamczuk**
Director of the Warsaw Support Center for Families
