

SEEDiA City

SEEDiA City bike

City bike was born out of experience and the search for new, more flexible ways to present our designs. Apart from its unique looks and urban character. **City bike** is based on modular design, making it possible to create 3 different configurations from basic elements. Its personality is brought out by LED backlight.

Panels Power	120 W
Battery Capacity	30 Ah
Working Temp.	-20 to 50 Cels. deg
Work time (no sun)	120 hours
LED backlight	Yes, palet RGB
Outside work	Yes, IP 65
Modular	Alternately back/seat

SEEDiA City classic

City classic is a modern bench providing most important features. It caters to the needs of cities and their inhabitants by providing both comfortable resting infrastructure as well as smart features such as mobile device charger, smart Wi-Fi and LED backlight.

Panels Power	120 W
Battery Capacity	30 Ah
Working Temp.	-20 to 50 Cels. deg
Work time (no sun)	120 hours
LED backlight	Yes, palet RGB
Outside work	Yes, IP 65
Modular	Alternately back/seat

SEEDiA City

City is the simplest bench from the line. It is characterized by dynamic shape and simple yet intriguing design. The photovoltaic panel is located on the seat in order to ensure full utilization of solar energy, regardless of its positioning. It can be very easily converted into **City classic** or **City bike**.

Panels Power	120 W
Battery Capacity	30 Ah
Working Temp.	-20 to 50 Cels. deg
Work time (no sun)	120 hours
LED backlight	Yes, palet RGB
Outside work	Yes, IP 65

Informative Color

Polycarbonate side panel can be backlit using any color from the RGB palette. It also contains the client's logotype and feature description.

Wi-Fi

Thanks to our solutions you will be able to utilize wireless internet connection while using the bench

Solar energy

We utilize solar panels that allow you to decrease the need for energy, and thus CO2 emission

Bike stand

City is a series of urban benches supporting modular design. In order to cater to metropolitan needs, it was equipped with a dedicated bike stand.

Charger

City series products are equipped in USB and inductive chargers that are available for users all day long
