

WVD Assessment

- Windows Virtual Desktop is a desktop and app virtualization service that runs on the cloud.

Here's what you can do when you run Windows Virtual Desktop on Azure:

- Set up a multi-session Windows 10 deployment that delivers a full Windows 10 with scalability
- Virtualize Microsoft 365 Apps for enterprise and optimize it to run in multi-user virtual scenarios
- Provide Windows 7 virtual desktops with free Extended Security Updates
- Bring your existing Remote Desktop Services (RDS) and Windows Server desktops and apps to any computer
- Virtualize both desktops and apps
- Manage Windows 10, Windows Server, and Windows 7 desktops and apps with a unified management

2-Days Assessment

process

in our 2-day assessment, Sela's experts will engage with your relevant stakeholders to gather information that will assist you in determining how WVD could be implemented successfully and efficiently in your organization. Windows Virtual Desktop leverages the Cloud computing, accessibility and security of the Azure Datacenter Network for companies throughout the globe.
