Impact and ROI

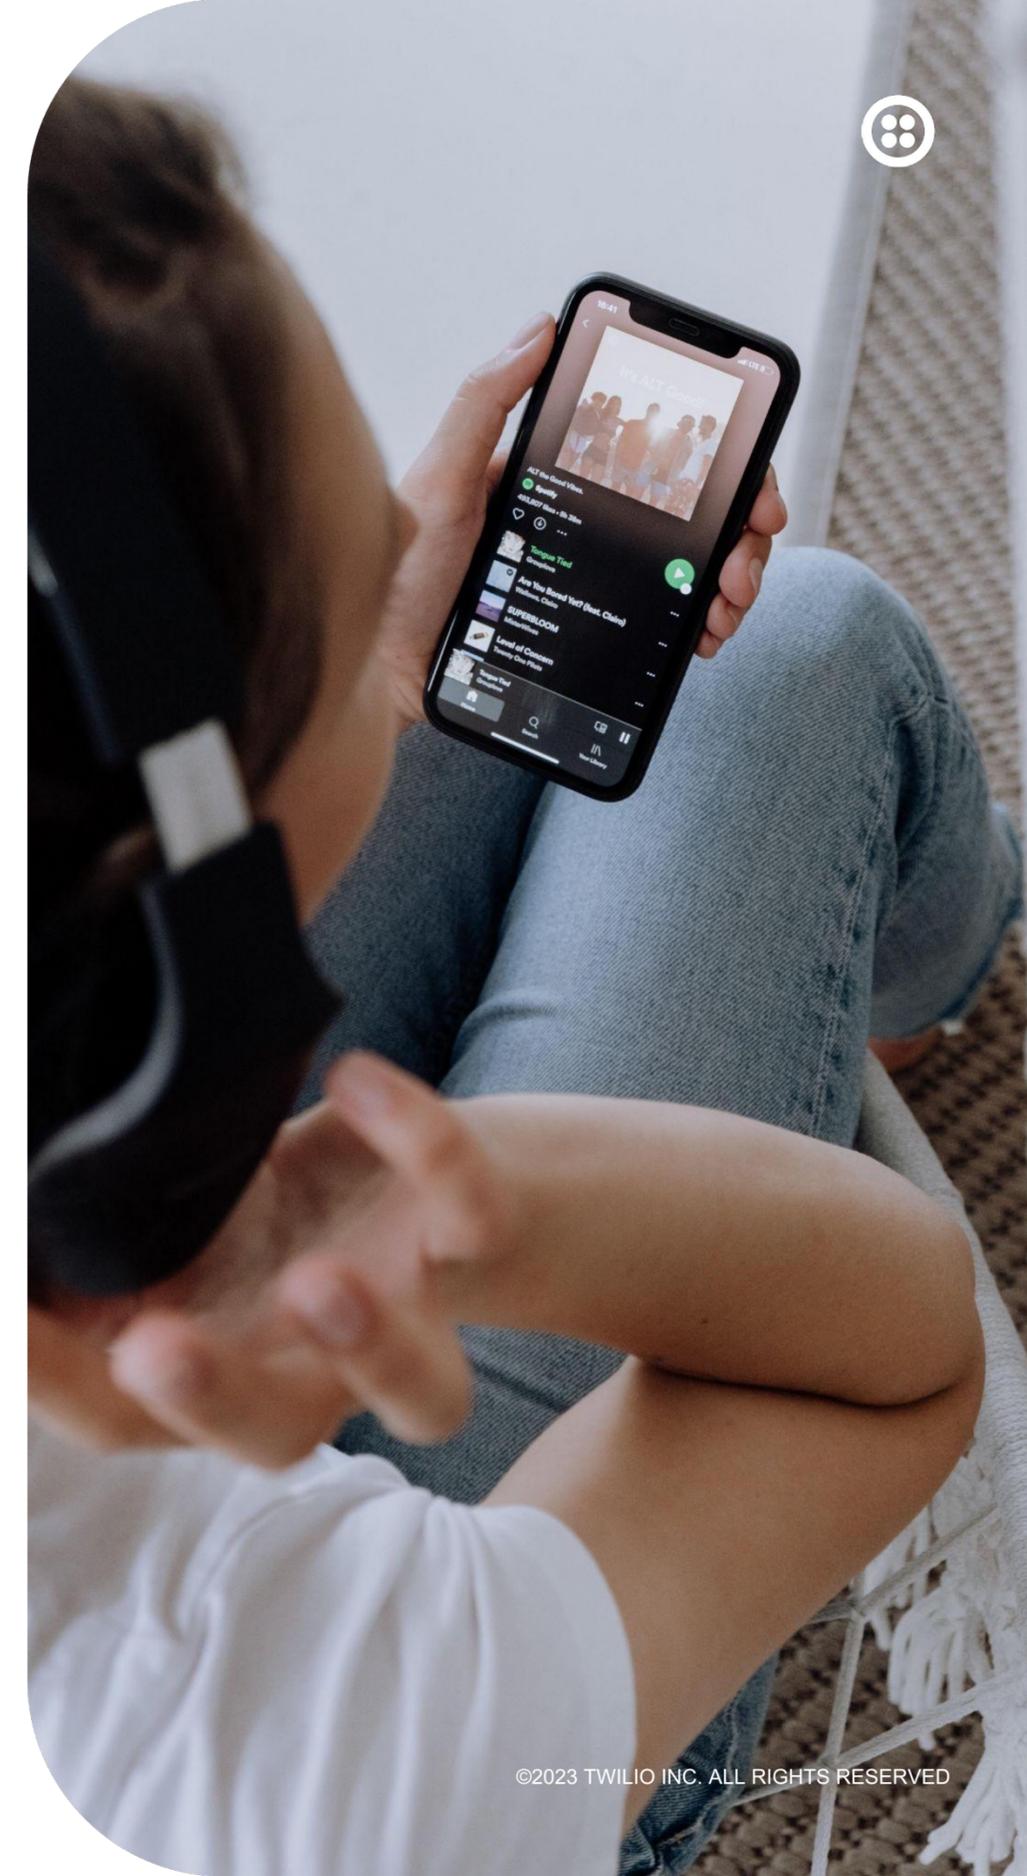

Delivered +987M emails over the 2020 holiday season

Twilio SendGrid made the hard stuff easy, and the really hard stuff easier... They took the hard issue of scale off our plate, so we never had to think about it. And when we hit issues that had to do with the art of email sending, they were there to teach us. Without them we wouldn't have been able to save the email program and we wouldn't have such a successful email program going forward.

Segment allows us to connect the dots and fill in the blanks. With just a traditional email reporting funnel, you're missing the opportunity to capture the full value that an email program provides. SendGrid empowered us to prove the value of investing in our email program. We are getting bookings we may not have gotten otherwise.

There are a ton of subtleties with email delivery that are hard to grasp just by doing your own research. There's a rabbit hole of information. It starts easy, but when everything collides with each other, that's when you need your expert. Having access to SendGrid's deliverability experts has helped us learn everything from DKIM, DMARC, to SPF and how they interact.
