We are at your service!

MICROSOFT 365 SETUP + MAILBOX MIGRATION

Purchasing a license is just the first step, as virtual environments and operating systems can surprise you with their architecture.

www.microsoft365.senetic.net

The setup service is a time-saver and an excellent alternative for companies that do not have an in-house IT department.

You take care of the development of your business, and we will quickly and efficiently implement solutions in your company and provide you with the knowledge of how to use them. Correctly set up tools are the certainty of exploiting the full potential of these solutions and increasing productivity in the organization.

We start our work from the consultation stage of license selection and accompany you on your journey through the full commissioning process. Make use of our knowledge and experience to grow your business with professionally implemented, state-of-the-art IT systems.
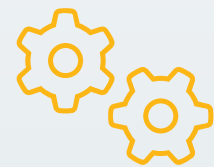

How do we work?

With your needs in mind

We have an individual approach to each client. You can choose a ready-made range of configurations or a customized approach depending on the requirements and functionality necessary for your organization.

Comprehensively

We offer you a comprehensive service: in one place you can order Microsoft solutions and personalized configuration and you do not have to search for other subcontractors.

Effectively

We have vast experience, the necessary know-how and skills to carry out the service efficiently and effectively. That's more than 13 years of being on the market and gaining competence.

What is included in the

„MICROSOFT 365 SETUP + MAILBOX MIGRATION" package?

The initial professional configuration makes it possible to fully use the potential of the Microsoft 365 solution package. Within this service we offer an array of actions allowing for an effective launch of the most important functions and migrate your company's mailboxes..

1. Creating a user with administrator privileges

2. Assigning licenses to users

3. Configuration of DNS records and the domain

4. Azure AD Connect / Azure AD setup configuration (without the configuration of ADFS service)

5. Mailbox migration

How does the process work?

1. After purchase, you will receive a proforma invoice in accordance with your terms and conditions.

2. After payment of the proforma within 5 working days a dedicated Project Manager will contact you.

3. You and the Project Manager will agree on a dedicated person to make decisions about implementation on your side.

4. We will ask you to provide the information necessary for implementation (logins, passwords, etc., environmental information) in a secure manner.

5. Our team will analyze and verify the completeness of the information provided.

6. The Project Manager will contact you to set up an implementation date.

7. You will receive an implementation schedule with the responsibilities of the parties.

8. Our engineer starts the implementation of the selected service.

9. We will perform internal tests to verify the correctness of the work done.

**NOTE: If you would like to train your team on how to use the tools, let us know!
We will be happy to share our knowledge.**
