

MANDAY

TIME TRACKING APPLICATION

Time Tracking and **budget** monitoring across external systems

INTEGRATED SYSTEMS

Azure DevOps

Jira Software

Project Online

MANDAY introduces a new way to record accomplished time, while offering easy project budget monitoring. Quick, effective and across all systems

MANDAY TIMESHEETS

Well-organized project reports in one place

You can find all your projects from external systems on the **Timesheets** tab. Clear view for **grouping and filtering**.

Select external systems and projects

Filter according to the selected external systems and projects.

Select a time range

Choose the time range for the report.

Classify

Each grouping option allows you to view your own inputs on the reports.
