# CONDUCTOR™

## ORCHESTRATE WORK ACROSS THE ENTIRE TEAM

**CONDUCTOR** helps orchestrate work across the entire team.

The collaborative work management platform helps teams coordinate their work and collaborate in real time to orchestrate every task with ease. With Conductor as the single source of truth, housing all project information and files, the entire team can work in harmony, like a **finely tuned orchestra**.

The tablet screen shows the Rellyant Conductor dashboard. At the top, there's a navigation bar with 'Rellyant' and a '+' icon. Below it, tabs for 'Dashboard', 'Projects', and 'My Project Reviews' are visible. The main content area is titled 'Europe and Canada' with a sub-header 'Regional Launch Readiness'. It features a table with columns: Country, Projects Completed, Overdue, Responsible, Launch, Launch Readiness, and Country Reviews. The table lists regions like Southern and Central Europe, Nordic-Baltics, UK and Ireland, France, Italy, Canada, and Germany, along with their respective project counts and launch dates. Below this, there's a 'Department Launch Readiness' section with a table showing progress for Commercial, Medical, Strategy, and Other departments. At the bottom, a 'Projects' section lists individual projects with details like Project Name, Country, Department, Deadline, Progress, and reviews.

# ORCHESTRATE WORK

## A SMARTER WAY TO MANAGE WORKFLOW

Instead of project managers chasing after the team for status updates to revise the project plan, Conductor creates the more powerful approach of **work orchestration that engages the entire team**. Project managers can focus on achieving project success instead of administrative activities. With Conductor teams have the information, transparency, and accountability to complete projects faster, avoid issues, and course-correct before the project derails.

# INTEGRATED LEARNING

## JUST-IN-TIME TEACHABLE MOMENTS

Build skills and knowledge-sharing into your programs from the start. Trigger **teachable moments to deliver training at the exact moment it's needed** to create just-in-time learning. Conductor includes a powerful e-learning academy that you can populate with insights and training materials.

A SINGLE SOURCE OF TRUTH  
FOR THE WHOLE TEAM!

# SET UP FOR SUCCESS

## PUT FOCUS ON VALUE NOT PROCESS

Conductor's configurable Playbooks codify your team's best practices and create repeatable templates to match the way your teams work best. Create entire portfolios of projects and assign tasks to the right people with only a few clicks. Easily standardize processes to create greater dependability and consistency so **your teams can focus on what's important: moving your business forward**.

# INTEGRATIONS

## INTO YOUR ESTABLISHED WORKFLOW

Conductor integrates with lots of established office suites, including Office365. These products are often foundational element of many of today's workspaces. Although they cover many of the needs of modern organizations, they're missing key features to truly drive collaboration and work orchestration. Conductor fills in the gaps to enhance your existing infrastructure. It creates a seamless digital ecosystem for your teams to collaborate and orchestrate their work in real time.
