

Azure-Certified Service Partner

# 3 steps to Azure Migration:

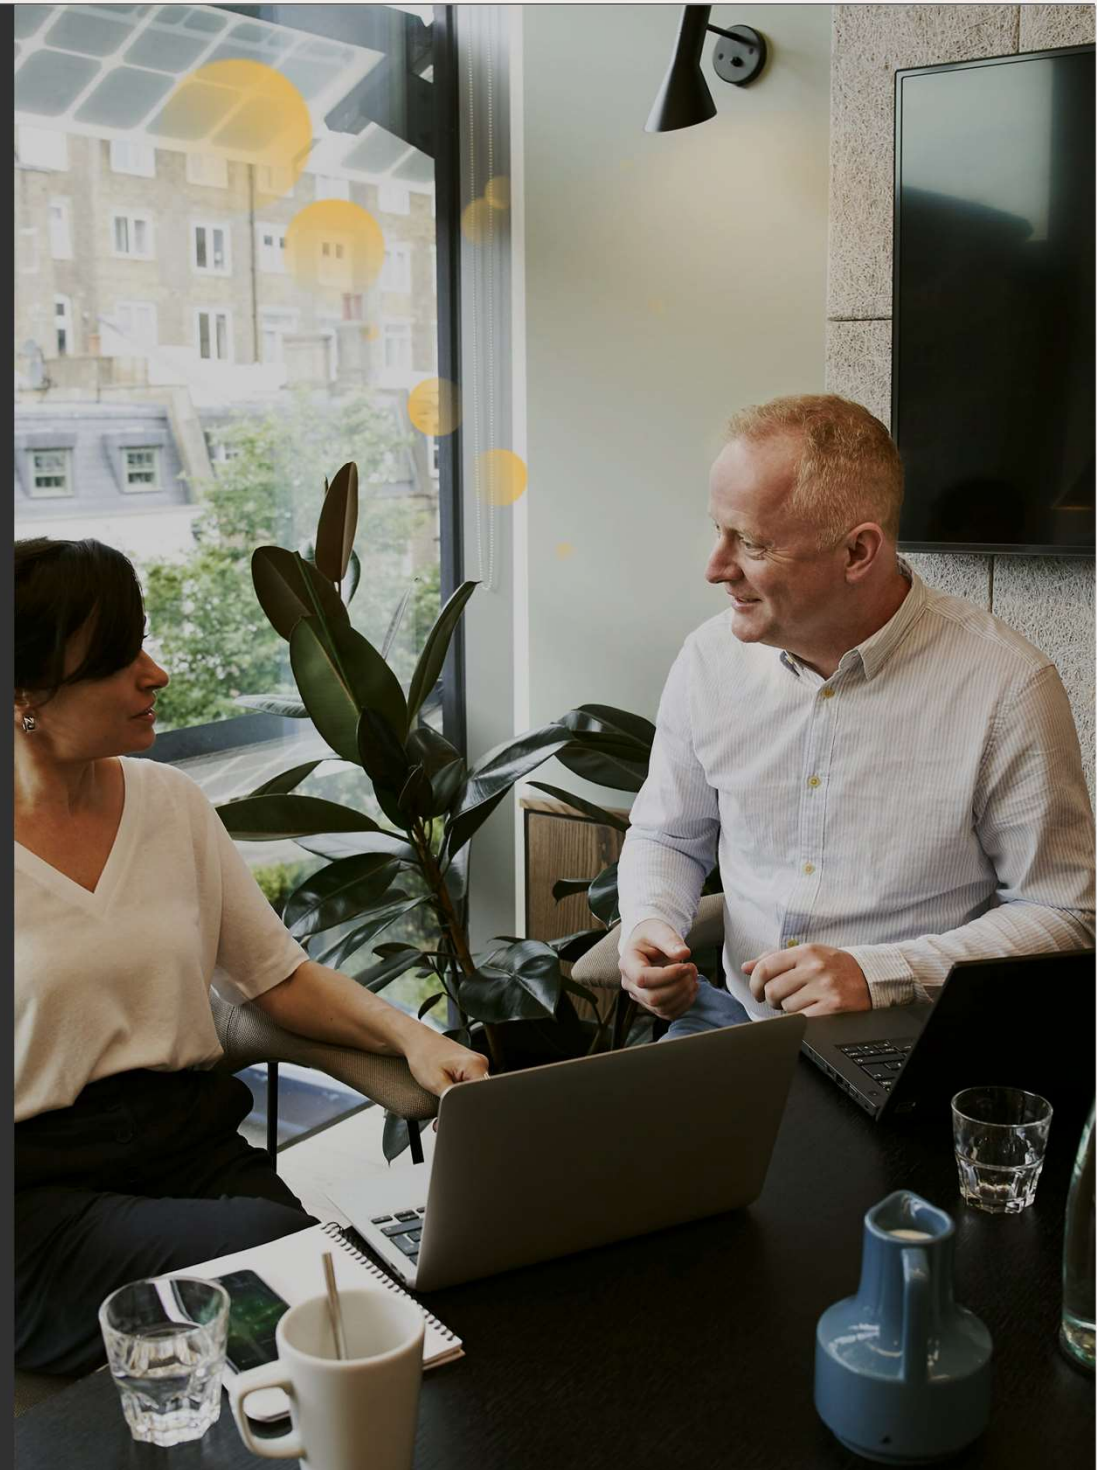

fast-track towards Cloud Adoption, including Cloud Design`

## '3D'-steps to plot your Cloud Migration Plan -plus- a professional Cloud Design.

Part of the Sentia Cloud Transformation portfolio, this Package offers a full Cloud Readiness evaluation that results in a practical Action Plan plus a 'Quick Win list' to help kick-start your Cloud Migration process.

*You Lead the Way; we'll help clear the path.*

## THREE TIME-PROVEN STEPS

# Kick-start your Azure Migration.

Translating your business requirements into a Cloud Design is already quite the challenge. Plotting your actual Cloud Migration will often prove even more complicated, as 'tech' is only one side of the matter.

At Sentia, we're experienced in drawing out Cloud Migrations based on your specific existing and future *Technology, Processes*, and *Human Capital*. Rely on our time-proven approach to designing your future operational model, supporting Cloud architecture, – and the processes and knowledge to manage all this.

In three time-proven steps, you'll gain a tailored Migration Plan (including Cloud Design) and can set upon your Cloud Journey *today* to lead the way in your industry *tomorrow*.

### 1- Discover

Assessing the  
Current State

### 2- Define

Defining the  
To Be situation

### 3- Design

Designing solutions  
that fit the To Be state

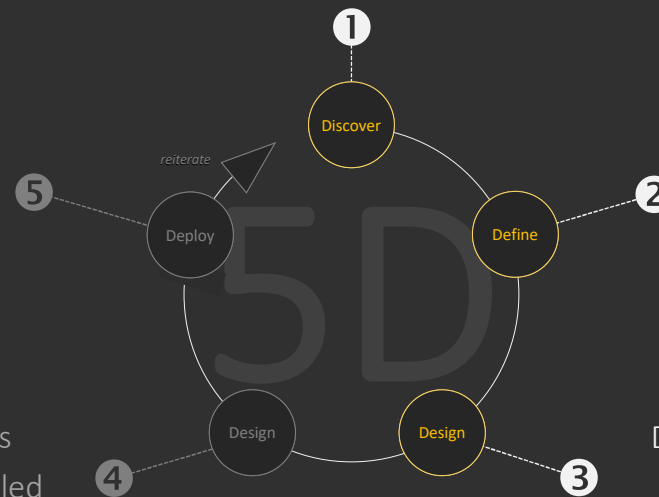

# Explore current state, desired state – then set upon your Roadmap

Take these three steps together with Sentia to put your organisation on the fast-track to Cloud Migration. Some 65+ customers went before you and have completed these practical steps.

Discover the 'To Be' situation, and thus the high-level requirements (e.g. "how to Deploy, which Compliance frameworks will apply, ...").

(embedding of Solutions in your organisation; a controlled transition to the 'To Be' state)

Structured interviews and tech audits to map out your current technologies, processes, Human Capital: 'As Is' situation.

(Embedding of the Solutions in your organisation; a controlled transition to 'To Be' State)

Drafting of Tech & Process Solutions, compliant with all applicable legislation, standards, and Best Practices from Azure and Sentia.

TIME-PROVEN, SUCCESSFUL APPROACH

# Full-stack service delivery

True digital transformation revolves around much more than *technology alone*. Equally important are how you'll adopt new *processes*, gather additional *skillsets*, and even adjust the *mindset* of people throughout your organisation.

In taking control of this full spectrum, you'll put yourself on the fast track towards full Cloud Adoption and take the lead in your industry.

We stand by your side, at each layer of the 'stack'; *you* Lead the Way.

**SELF-SERVICE CLOUD PLATFORM**

Application & Cloud Portal on Microsoft Azure  
*(Independent Software Vendor)*

**IMPROVE WHAT REALLY MATTERS**

through certified Vested contracting  
*(Utilities)*

**INTEGRATION OF TECH, PEOPLE, AND PROCESSES**

Central control, in service of local needs  
*(Utilities)*
