SENTINEL®

Scope of Work Details

Implementation

- Create a subdomain for mail routing to M365 in Google Workspace.
- Ensure mail users are provisioned in Exchange Online Center.
- Perform an Automated Google Workspace Migration Batch through Exchange Admin Center (EAC).
- Import users via CSV file.
- Verify email functionality post-migration.
- Deploy up to one (1) additional node to the existing migration environment if needed.

Discover and Design

- Review Google Workspace environment and existing configurations.
- Ensure Sentinel Technologies is a Project Creator in Google Workspace.
- Provide Project Creator Credentials to Sentinel Technologies.
- Review migration scope and limitations.
- Create a design document with implementation decisions.

SCOPE OF WORK DETAILS
