SENTINEL

Microsoft Azure Arc Jumpstart

Sentinel experts collaborate with your organization to assess and enhance your Microsoft Azure Server, leveraging Azure Arc to help you achieve peak performance. We ensure seamless compatibility with the latest service version and adhere to Windows Server requirements. Our comprehensive implementation encompasses setting up Azure Arc and Windows Defender on a dedicated server, as well as affirming visibility in the Windows Defender Security Center. Your team will receive detailed documentation for an effortless knowledge transfer upon project completion. Trust Sentinel for a secure, streamlined enhancement and optimization of your Microsoft Azure Server.
