Sentinel Technologies is a recognized premier business technology services provider dedicated to delivering the highest quality IT solutions, customer service and support. As our services have spanned generations of technology, we have stayed at the forefront of IT developments and maintained a strong focus on providing practical and innovative solutions. With single-source accountability, Sentinel processes and teams can efficiently address a range of IT needs - from communications, to data center, to security, to cloud and managed services.

Sentinel understands your business is in constant motion. We take the initiative to make solutions happen that drive your business forward.

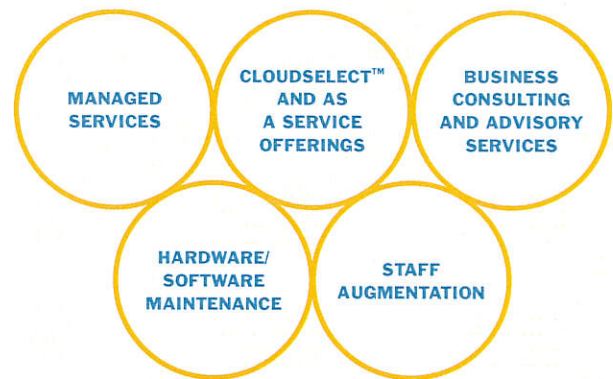

Always Engaged

When your needs require the design, sale and implementation of a technology solution, Sentinel project teams are always up to the task. The Sentinel team remains always engaged throughout the life of the project to ensure the highest quality solution is delivered on time and on budget.

Always Connected

When maximizing the productivity and availability of current systems is your priority, Sentinel's expert support and cloud teams deliver consulting, managed services, maintenance and staffing to ensure you are always connected.
