SEPAGO
WINDOWS 365 POC

- Customer issue:
  - The technical and organizational introduction of Windows 365 is not trivial

- Our solution:
  - sepago Windows 365 PoC
  - together we roll out the cloud desktop without compromising security and performance

HOW DOES IT WORK?

- After we get to know your organization during the onboarding phase, we structure the PoC according to your business goals and requirements :

I. Workshop: Windows 365 and different use cases

II. Workshop: Joint target picture for

III. Allocation of licenses, initial configuration of Microsoft Endpoint Manager and Windows 365

IV. Deployment of Cloud PCs

V. Software Rollout with Microsoft Endpoint Manager

VI. Workshop: Evaluation of PoC and next steps

THE WINDOWS 365 CLOUD PC EXPERIENCE

Streamed across Devices

You will be able to boot instantly to your Cloud PC, streaming your Windows experience to any of your devices.

Always ready and updated

Streamed from the cloud and traveling with you, Windows 365 **is always ready and always updated**, wherever you are, on whatever device you want to work on. It's a simple and versatile Windows experience delivered by the Microsoft cloud.

Personal and Familiar

Windows 365 is personalized and familiar with all of your settings and content, so when you go back into **your Cloud PC it is right where you left it.**

Scalable and resilient

Windows 365 is **secure by design,** leveraging the power of the cloud and the principles of Zero Trust. Information is secured and stored in the cloud, not on the device.

Predictable costs

Windows 365 makes purchasing Cloud PCs **predictable** with per-user per-month **pricing**.

### Simple to buy, deploy, and manage

Windows 365 simplifies procurement, deployment, management, and updates because unlike other solutions, it uses **virtualization behind the scenes.**
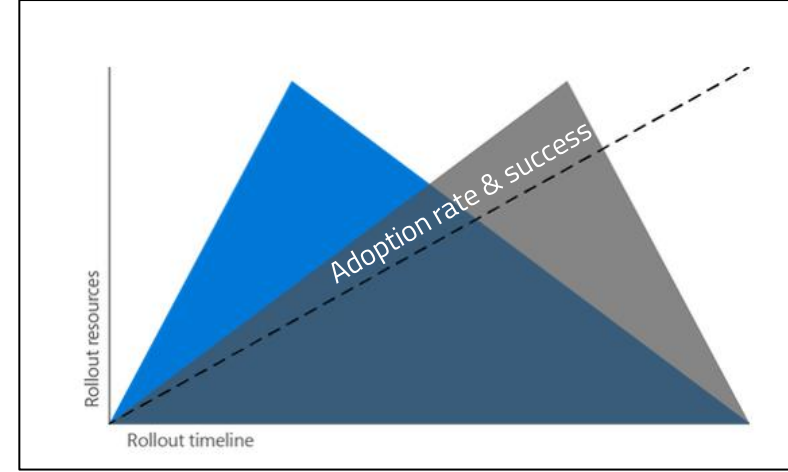

CHANGE IS NOT A BAD THING!

- We offer extensive change and adoption management from the beginning
- From a wide range of proven techniques we will find the technique best for the customer
- As we combine adoption and change management with joint process creation, new solutions bring the best value for you!
