

# CLOUD FOR EVERYONE

## WE UNDERSTAND YOUR REQUIREMENTS

At Sepia Solutions we understand and recognise the needs and requirements of a modern IT department while it responsibly manages and maintains company data and other assets, taking care of security, compliance, privacy, as well as reliability, availability and accessibility benchmarks.

When you decide to trust our expertise, you become our partners, and the purpose of the project becomes to deliver the best results. We don't just suggest solutions for you, we study and assess the current scenario, making a complete analysis of what would be best for the growth of your enterprise as well as your pocket.

# SEPIA SOLUTIONS

## VALUE ADDED SERVICES

After you have made the decision that would change your business forever, we provide you with our full technical support, giving you full deployment assistance, and taking you successfully to the last step of cloud migration. Our expertise will help you to recognize the full capabilities of Microsoft Azure and its benefits, including how the team's productivity increases with the integrated Azure tools.

# YOUR BUSINESS MATTERS

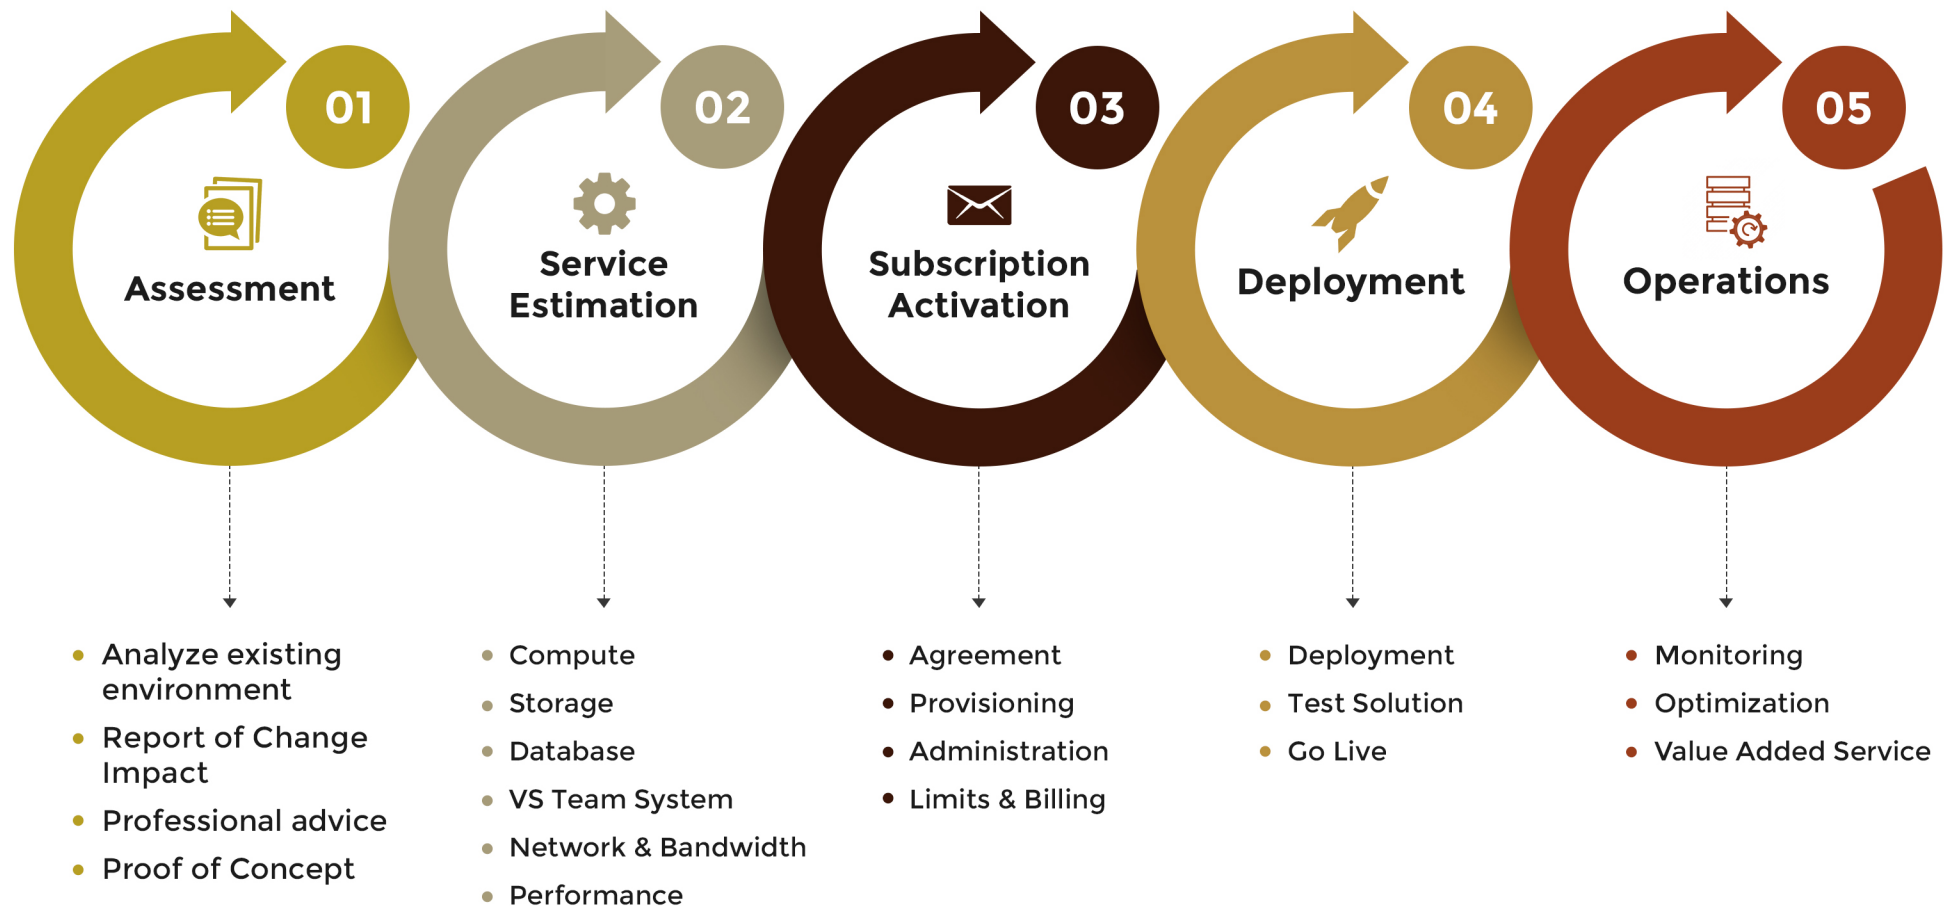

Apart from the Azure packages that are sure to meet your requirements, Sepia Solutions provides you with value added services throughout the progression of the project. Starting from a free assessment, Sepia's team makes a detailed analysis of the existing environment and submits a complete impact report, suggesting a solution accordingly.

# CUSTOMER ENGAGEMENT FLOW

Moving to the cloud may sound intimidating. But it becomes very easy when all you have to do is make the decision, while we do all the major work. Trust in our expertise as we skillfully guide you from the first step to the last, starting from professional advice, tailoring a solution for your business and giving it a competent completion.

# SEPIA PACKAGES FOR ISVS

*“The Cloud has hidden features that can benefit the growth of your organization.
