What is Azure AI Realisation Workshop?

The AI Realisation Workshop empowers organisations to harness the potential of AI in Microsoft Azure, align AI initiatives with ethical guidelines, and develop a roadmap for successful AI implementation, thereby driving growth, efficiency, and innovation within the organisation.

Azure AI Realisation

The AI Realisation Workshop is a comprehensive one-day program designed to empower customers with the knowledge and tools available in Microsoft Azure's AI ecosystem. The workshop brings together AI experts and the customer's stakeholders to explore the potential of AI technologies within your organisation. The day begins by introducing participants to the various AI tools and services offered in Microsoft Azure, allowing them to gain a solid understanding of the capabilities and applications.

The workshop goes beyond technical aspects and delves into the ethical considerations of AI implementation. Participants engage in thoughtful discussions on the responsible use of AI, ensuring that any AI strategies align with ethical guidelines and data privacy regulations. Moreover, the workshop aims to identify specific opportunities where AI can create meaningful impact and deliver business value within the organisation.

Following on from the end of the AI Realisation Workshop, our experts prepare a well-defined AI strategy tailored to your unique needs and goals. They gain confidence in leveraging Microsoft Azure's AI tools effectively and responsibly, setting them on a path to unlock the full potential of AI in your organisation, ultimately driving innovation and efficiency in your operations.

The Journey to a Modern Enterprise

Proven in delivering end-to-end cloud transformation.

Based on years of experience in helping customers move to Azure at scale. Everything that we do in the process of taking our customers to Azure is underpinned by the prescriptive guidance and processes included in the Microsoft Cloud Adoption Framework.

Why **Servent**

An agile partner who can mobilise in days and not months, with the skills and experience to deliver digital transformation for all businesses.

100% Azure Focused

As a leading UK Microsoft Partner and early adopter of Azure, we cover the full breadth of Azure services in depth, due to our 100% laser focus on the Azure platform.

15 Years' Experience

We've been with Azure since the beginning, with 15 years' experience we offer unparalleled expertise and help some of the biggest enterprises in their adoption of the Azure platform.

Enterprise Scale

Our extensive experience with some of the largest enterprise customers enables us to bring enterprise scale thinking to businesses of any size through our Enterprise Cloud approach.

Demystifying the cloud

We work with customers of all shapes and sizes across many industry verticals and help them better understand the Azure platform and how it can transform their Business

Benefits

The Business Discovery Workshop is a pivotal step in the planning process for organizations seeking to align their strategies with technological innovation. This collaborative session is meticulously crafted to unearth and document the core business priorities and desired outcomes of our clients. Through in-depth discussions and thorough analysis, we gain invaluable insights into the specific goals and objectives that drive your organization forward. This phase sets the foundation for a customized approach, ensuring that every recommendation and solution provided is tailored precisely to address your unique challenges and aspirations.

Familiarisation with tooling

Awareness of ethics & compliance

Tailored AI strategy

Competitive advantage

Empowered workforce

Workshop agenda

We aim to approach the workshop through discussion, providing examples of what we have seen that works well, and why a specific approach may not be best for your organisation.

We also look to include all members of the team and discuss different approaches to capture a rounded view of your organisation.

Engagement through discussion

We aim to approach the workshop through discussion, providing examples of what we have seen that works well, and why a specific approach may not be best for your organisation. We also look to include all members of the team and discuss different approaches to capture a rounded view of your organisation.

Strategy

Following on from the workshop, our experts will prepare a strategy paper considering the goals of your organisation and the steps that need to happen along with any recommendations to achieve those goals.
