What is our ExpressRoute Assessment?

ExpressRoute Assessment from Servent is our Azure networking assessment service where we will assess your current networking setup on the Azure platform with a view of implementing ExpressRoute to enhance your existing connectivity experience and capability.

We will make recommendations based on the assessment that we will undertake. Following the assessment, we will remain available for further engagement to help and assist with the implementation of ExpressRoute service.

Servent

3 Day Assessment

Our ExpressRoute Assessment is a three-day offering where we work with your organisation to understand how we can deploy ExpressRoute to provide you with an optimised networking experience in Azure. The ExpressRoute Assessment from Servent will provide your organisation with the opportunity to engage with our Azure Architects and Engineers on all aspects of Azure networking.
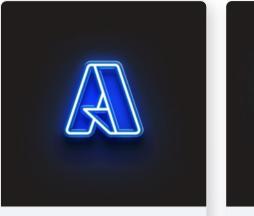

As the Azure public cloud has grown so have the numerous networking options and solutions available on the platform. Between the networking services native to the platform and the hundreds of others published in the Azure Marketplace the sheer scale of available and potential solutions can be somewhat overwhelming.

This is where Servent are best placed to help. Given our heritage on Azure we have a deep understanding of both native Azure and third-party networking offerings available in the Azure Marketplace. As part of our ExpressRoute Assessment, we work with you to understand your business. We help to identify hybrid and cloud networking solutions and services to provide you with the best and most appropriate ExpressRoute solution.

Servent

Why Servent

Partner with a team that has a deep understanding of Azure and a proven track record in cloud transformations. Our 100% focus on Azure, combined with our status as a priority partner, allows us to deliver tailored solutions with agility and precision. We bring enterprise-scale expertise to businesses of all sizes, helping you navigate the complexities of modern IT environments with confidence.
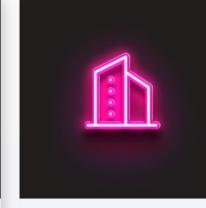

100% Azure Focused

As a leading UK Microsoft Partner and early adopter of Azure, we cover the full breadth of Azure services in depth, due to our 100% laser focus on the Azure platform.

15 Years' Experience

We've been with Azure since the beginning, with 15 years' experience we offer unparalleled expertise and help some of the biggest enterprises in their adoption of the Azure platform.

Enterprise Scale

Our extensive experience with some of the largest enterprise customers enables us to bring enterprise scale thinking to businesses of any size through our Enterprise Cloud approach.

Demystifying the cloud

We work with customers of all shapes and sizes across many industry verticals and help them better understand the Azure platform and how it can transform their Business

Servent

Benefits

- Your assessment is manged by our certified Architects and Azure Engineers.

- Ensure that ExpressRoute is deployed following both Servent and Microsoft recommended best practice.

- We will accelerate your Azure networking capability by leveraging our expertise for all aspects of Azure ExpressRoute and Azure networking in general.

- Enable your internal Network teams to deploy and manage new Azure networking solutions such as ExpressRoute with confidence.
