

Services for Microsoft 365 Copilot

Embrace the future of work with Microsoft AI

Supercharge efficiency and streamline daily work

Microsoft 365 Copilot seamlessly integrates the capabilities of Generative AI with your data, directly within the core Microsoft 365 applications that are essential to your workforce. While this cutting-edge technology empowers employees to achieve unprecedented efficiency, you need a strategic approach to ensure your organization and data are prepared for AI integration.

Dell's methodology for implementing Microsoft AI goes beyond evaluating the readiness of your foundational technologies to encompass an assessment of its impact on processes, including security and governance, as well as the facilitation of technology adoption to equip your workforce with the necessary tools to maximize the return on your investment.

Harness our expertise to drive the outcomes you need

Rely on expert guidance from Dell Technologies to maximize your Microsoft AI solutions. Our Microsoft certified professionals will first assess your unique environment, gather requirements, and create a tailored plan for success. We handle implementation, testing, and prepare your team for seamless operations.

- ✓ Increase efficiency & productivity
- ✓ Confidently tackle AI data governance
- ✓ Ensure focused adoption of AI technologies
- ✓ Monitor impact across the organization

The demand for AI in the workplace is clear:

64% say they struggle to find enough time and energy to get their work done

70% say they would delegate as much as possible to AI to lessen their workloads

3x time in Microsoft Teams meetings and calls increased 3x per week since 2020

Work Trend Index Report: Will AI Fix Work?
Microsoft, May 9, 2023

Drive productivity and efficiency to new heights with the combined power of AI and Microsoft 365

- Equip your team with a guided pilot of Microsoft 365 Copilot, a platform and experience readiness plan, limited data discovery and governance policy analysis, and the knowledge to operationalize within your environment
- Extend your pilot to include additional SharePoint sites, data governance policies and pilot users, plus adoption and change management planning to ensure end user readiness
- Equip your business with a production implementation, even more SharePoint sites and data governance policy analysis, plus extended adoption and change management planning

Over 35 years in partnership with Microsoft

Our co-engineered solutions, services and technical expertise provide you with a more complete partnership to drive outcomes and accelerate digital transformation.

- ✓ Global Microsoft FastTrack Partner
- ✓ 47,000+ Microsoft certifications held by Dell Technicians
- ✓ 7/7 Microsoft Solution Area Competencies
- ✓ Member of Microsoft Intelligent Security Association

Take the next step on your path to modernization

Dell Technologies offers an extensive portfolio of professional services for Microsoft technologies to empower your teams and help you realize the business outcomes you need.
