Azure Foundation Landing Zone

Shaping Cloud

Getting started

| Design | Deploy | Review |
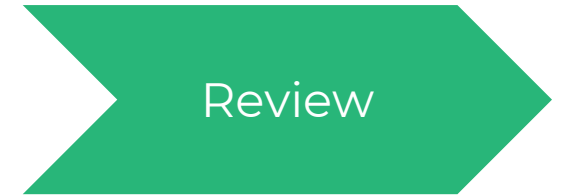

1 Compliant

We ensure the design fits your organisation's needs for management, governance security, and DevOps.

2 Environment

We plan your cost management, access management, network topology, and resource organisation.

3 Ready

We set up your Landing Zone, testing and review with business and technical stakeholders to ensure readiness.

Landing Zone

Foundational Landing Zone

- Small and midsize businesses (SMBs)
- Simpler, smaller-scale deployments
- Standard requirements
- Achieve MVP (minimal viable product)

✓ Improve security, compliance and governance

✓ Get ready for migration to Azure

✓ Optimise existing Azure usage

✓ Adopt Microsoft best-practice

Conceptual architecture
