Occupancy Analytics: ½-Day Workshop

Learn possibilities to utilize occupancy data with our free half-day workshop. Learn best practices, identity use cases and corresponding infrastructure requirements
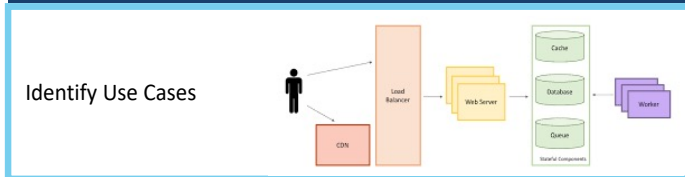

Azure offers a comprehensive set of big-data solutions that help you gather, store, process, analyze and visualize occupancy data of any variety, volume or velocity, so you can discover new opportunities and take quick action.

This free half-day workshop focuses on identifying occupancy analytics use cases and find the best way to implement them thus creating a smarter workplace for both employers and employees.

Content:

- Pre-workshop call (30 mins) to determine background information

- Exclusive half-day workshop (4 hours)

- Follow-up documentation including identified use cases and corresponding infrastructure assessment

Identify Use Cases
